Environmental Health Services

Mission Statement

The mission of Environmental Health Services (EHS) is to ensure that the environment of the city is safe and healthful.

This mission is accomplished through regulation and inspection programs of food establishments, schools, boarding homes, residential care facilities, and other public places.

This mission is also accomplished through rodent, insect, and animal control programs, and the evaluation and control of water supplies, sewage disposal systems, and solid waste handling, including hazardous and infectious waste.

Under state and local laws, EHS is required to enforce statutes, conduct educational programs, provide remediation, maintain records, and where appropriate, issue or approve permits.

Philadelphia Department of Public Health

Mission Statement

The mission of the Department of Public Health is to protect the health of all Philadelphians and to promote an environment that allows us to lead healthy lives.

We provide services, set policies, and enforce laws that support the dignity of every man, woman and child in Philadelphia.
