NO REFUNDS. You may make up a class that you've paid for at anytime it is offered. Please tell Nikki.Lee@phila.gov of your plans.

Which dates will you be attending?

Day One: _____

Day Two: _____

Day Three: _____

DIRECTIONS

Driving: Parking locally is \$15-\$27. Parking is available in the garage next to the Reading Terminal Market with entrances on 11th and Arch Street. There is another garage on 10th Street between Filbert and Arch Streets.

Train stop is the Market Street East Station. Take the steps to 12th Street and the Convention Center. Go through the glass doors and up the escalator. (Turn 180°.) At the top of the escalator turn right and then right again and in front of you will be another set of glass doors. Once through these doors you will see the Aramark Tower on your right. Go through another set of glass doors. You will be required to show photo identification to receive a visitor's pass. Take the elevator to the 8th floor. Go through the glass door of the Department of Public Health to the training room on the left.

If you are lost, go outside. The Aramark Tower is located at the corner of 11th and Market Streets. The Hard Rock Cafe is at one end of the block and the Aramark Tower at the other end. There is a Sovereign Bank on the corner. The entrance to the Aramark Tower is next to the bank.

We are directly over the 11th Street stop of the Market Frankford El. The Route 23 bus goes north on 11th Street and south on 12th Street, and many busses run up and down Market Street.

Lunch is on your own. You may eat in class.

There is a food court on the concourse level of the Gallery next door. The Reading Terminal Market and Chinatown are nearby. The 15th floor of the Aramark Tower is a lovely cafeteria.

A certificate of successful completion of contact hours will be awarded at the end of the day, which must be attended in its entirety. Verification of participation will be done with a sign-in sheet at the start of the day and submission of post-test and evaluation at the end of the day.

If you have a nursing baby less than 6 months of age or need to pump, bring your baby or your pump.

This form may be copied and given away.

**Registration Cut-Off Date is
THREE (3) weeks before the class
you want.**

You will receive a short pre/post test electronic survey via email. Please participate in these important surveys.

If the trains are running, class is ON.

A 20-Hour Interdisciplinary Breastfeeding Management Course for the US

A 20-Hour Interdisciplinary Breastfeeding Management Course for the U.S.

Instructor

Nikki Lee
RN, BSN, MS, IBCLC, CCE, CIMI, ANLC
Board Certified Lactation Consultant
Advanced Nurse Lactation Consultant

Nikki has worked with mothers and babies since 1975 in a variety of settings: homes, birth centers, hospitals and clinics. She is a lactation consultant, a childbirth educator, a craniosacral therapist, an infant massage instructor, a teacher, and a nurse. Nikki keeps the *Philadelphia Breastfeeding Resource Handbook* up-to-date, creates promotional and education materials educates healthcare professionals and works with the business community to develop corporate lactation programs.

Nikki represents the Philadelphia Department of Public Health on the Pennsylvania Breastfeeding Coalition. She dreams of the day when Philadelphia, the City of Motherly Love, has at least one Baby-Friendly hospital and a HMBANA certified donor milk bank.

Disclaimer: Neither Nikki Lee nor the Philadelphia Department of Public Health have any influencing financial relationships nor any commercial support for this course.

Program Description

This three-day course offers enough information to partially fulfill Step 2 of the 10 Steps to Successful Breastfeeding.

Day One

Breastfeeding as a public health issue.

Local, national and international strategies to increase breastfeeding initiation and duration.

Advantages of breastfeeding; health risks of not breastfeeding.

Counseling and cultural competency.

Anatomy and Physiology of Milk Making.

The Hospital Maternity Unit.

Day Two

Milk Supply.

Latch, positioning, and following infant cues.

Effective hospital policies and practices.

Collecting, storing and feeding human milk.

Contraindications to breastfeeding.

Babies who refuse the breast.

Day Three

Preterm Infants and Infants in Special circumstances.

Hospital and community breastfeeding problems

Providing on-going support for Breastfeeding Mothers

The Business Case for Breastfeeding

Program Objectives

The participant will be able to:

Identify evidence for best practice.

Discuss the anatomy of the breast and the physiology of lactation.

Assess breastfeeding and offer assistance if it is necessary.

Teach a mother how to hand express.

Facilitate establishment of a milk supply.

Implement ways to feed a baby who is not yet breastfeeding.

Develop worksite support for the breastfeeding mother.

Cite advantages of skin-to-skin for all infants and their parents.
