

OFFICE OF THE MANAGING DIRECTOR

Issued:

MANAGING DIRECTOR DIRECTIVE NUMBER 46

FENCING OF VACANT LOTS RESULTING FROM CITY DEMOLITION ACTIVITY

Vacant structures demolished by or for the City will have fencing installed on the exposed perimeters of the site. This will be done to maintain the appearance of the lot by preventing short dumping.

The Department of Licenses and Inspections is hereby directed to develop and implement procedures to put this directive into effect. The cost of the fencing should be added to the abatement lien placed against the property.

This directive is effective immediately.

  
JAMES S. WHITE, MANAGING DIRECTOR
