

Dear Rob,

I just want to thank you again for having this project completed. My husband Mike Hatala was president of the Parkwood Civic until recently due to work obligations. But some 8-10 years ago when you conducted these brain storming meetings with our group and your planners we never imagined such a beautiful useful walking/biking trail for our community. We use it often, and every time appreciate the beauty and engineering of the whole trail.

Although we cannot make this ribbon cutting ceremony, I just wanted to thank you and your group for such a beautiful trail for our children and future generations to enjoy.

Thanks again for giving our community and taxpayers something tangible to enjoy fresh air and nature with.

Have a Merry Christmas and Happy New Year!

Regards,

Lisa Hatala, School Photographer
