

Summer Art Camp

Core Value: The World Needs Play

As an effort to build friendships and connections between campers of different age groups and classes, the Visual Arts program created several “Camp Days,” such as “Carnival Day” and “Safari Day.” Campers spent an entire day traveling to each teacher’s stations to participate in a fun, unique group activity. These experiences gave the campers the opportunity to interact with fellow campers they usually wouldn’t communicate with on a daily basis. These fun days made campers happier, more social, and excited to come back each week. After seeing such positive results, we will surely include these Camp Days in the following years of Summer Art Camp!
