<b>Repository</b>	Fairmount Archives
<b>Title</b>	Fairmount Park Maps, Plans and Drawings collection
<b>Date</b>	1684-2010
<b>Extent</b>	98.0 Linear feet
<b>Language</b>	English
<b>Abstract</b>	<p>Items in this collection relate to East and West Fairmount Park, the original components of what has become the vast Fairmount Park system. Unique in its composition, these areas not only contain naturalist landscapes, but they are also home to a truly diverse set of historic and functional structures. In addition to a vast trail system and traditional recreational facilities (such as swimming pools and baseball diamonds), these parks are also home to an array of 18th and 19th century historic houses, the nation's first zoo, the Philadelphia Museum of Art, the imposing Fairmount Water Works, and Philadelphia's iconic Boathouse Row.</p>

### Preferred Citation note

[Description and date of item], FP.2010.004, Fairmount Park Maps, Plans and Drawings Collection, Fairmount Park Historic Resource Archives.

## Scope and Contents note

---

This collection contains a variety of maps, plans and drawings relating to East and West Fairmount Park. Materials included in the collection are blueprints, bluelines, linens, mylars and paper. The collection contains diverse types of maps and plans, such as sewer plans, topographic plans, site plans, latitudinal and longitudinal plans, water main plans, street maps, and landscape plans. The collection is particularly strong in topographic plans, covering the entire region, and structural plans of the park's various components. Items included in this collection are dated from 1684 to 2012, and range from original survey plans of the park to modern restoration projects. All items included are in English.
