not”*

I Can Make Peace

“I want to stop fights in school. People fight in school because they want to just get some attention. They need it because somebody might feel like their not getting attention as much as they want. People can’t get that much attention because too many people need it. So, they start to fight. Instead, we can just fill people up with so much joy that they don’t want to fight or need attention. You can give people joy by giving them compliments and telling them how much you feel about them – about how nice they are – which gives them the good type of attention.”

– Azalea, age 9
