City of Philadelphia
Office of Innovation and Technology
Vendor Forum
Tuesday, January 31, 2012

The City of Philadelphia Office of Innovation and Technology emerged from the Division of Technology in 2011. As such, the Office of Innovation and Technology (OIT) is seeking vendors that it can form strategic partnerships with to help advance the City of Philadelphia's application of technology. OIT is inviting past and potential vendors to participate in the effort to optimize IT infrastructure, establish enterprise solutions for citywide functions, enable on-line services, and in general, to help the City of Philadelphia make resident and business interactions easier and more efficient.

OIT will host a vendor's forum at the Pennsylvania Convention Center on Tuesday, January 31, 2012 from 1:00 p.m. to 3:00 p.m. We urge you to attend.

Our goal is to share with you the IT vision and strategic priorities for the next 3 to 5 years. It is our hope that providing you with this type of information would help you tailor and align your product and service offerings to help OIT advance the City's IT goals.

The meeting will be held in room 114 at the Convention Center. Because of space, we are limiting participation to three (3) attendees per organization. Parties expressing interest in attending should RSVP by e-mailing karen.peters@phila.gov or by calling 215-686-8171 by 5:00 PM Eastern time, Friday, January 27, 2012.

We're looking forward to our meeting on the 31st and I would ask that you carve out two hours on that day to participate in this important discussion.

Thank you,
