

Jade is a 13-year old girl with hazel eyes and pretty smile. Pleasant and friendly, she is easy going and has a great sense of humor. She is particularly compassionate towards animals and people she holds dear to her heart.

Now in the 7th grade, Jade excels academically. She loves to learn and her favorite subjects are math and science. Her career goals include becoming a actress/dancer/professional singer or a veterinarian. She dreams of one day going to a jungle to explore and to see different animals.

Jade loves to read adventure books and enjoys listening to music especially pop music (Justin Bieber; Sam Smith & Ariana Grande). She also likes crocheting and doing girly things such as getting her hair done and having manicures and pedicures. She enjoys sports and her favorite team is the Steelers. Full of energy, she participates in crossfit and would love to be a cheerleader and play soccer.

Other things Jade likes to do include: watching cartoons (Bugs Bunny, Mickey & Mini Mouse), TV (Full House, Shake it up, Flintstones and Sponge Bob) and movies (Madea & Poppers); playing the game Bop it; and buffet style eating (although she is allergic to lima beans, fish and grapefruit). Her favorite holiday is her birthday because she is getting older and she receives gifts.

Jade is an assertive girl who is very in tune to others' feelings but has difficulty at times expressing her inner most feelings appropriately. She receives support in the classroom as well as medication management and behavioral modification therapeutic services. Through therapy, she is learning coping mechanisms and to express her feelings appropriately.

Jade was been adopted before and tragically the adoption failed. She is currently placed in a residential treatment facility. She does not currently have any contact with her biological siblings but would like to. She would also like to have contact with her adoptive mother and her children. Jade would benefit from a strong and structured, experienced two parent household with clear boundaries where she was the only child in the home. If Jade was granted three wishes, she would like to have her own bedroom, a spa day and a Playstation.
