

Neilek is a handsome, active, energetic and sociable 10-year old boy with sparkling eyes and beautiful smile that can light your heart. He is friendly and has a great sense of humor.

Neilek is inquisitive and is very interested in learning. He is an A–B student and very proud of his school performance. His favorite subjects are math and science. He is also very athletically inclined and loves to swim, play football and soccer. He aspires to be either a scientist and or a professional football player. Neilek enjoys playing video games; computer games and watching cartoons. The foods he likes best are buffalo wings and pizza. His favorite times of the year are his birthday and Christmas because they make him feel special and he loves to receive gifts on those days.

Neilek admires two of his teachers, because they never gave up on him. If Neilek was granted three wishes it would be to have a forever family; go to Disney World and to play on a football team.

Neilek is eager, ready and willing to have a forever family. He needs a family that loves and is dedicated to him. He would prefer to have a traditional two parent household with possibly a dog. While Neilek has struggled in the past with peer interaction, he is receiving therapeutic services to address those behaviors as well as the grief and loss of his biological family. He would be best in a home with older children, due to past attention seeking behaviors when placed with younger children or peers of the same age. Additionally, he has a very strong bond with one of his siblings and would like to maintain that relationship. Visitation would be needed to foster this connection. Families would require Treatment Foster Care Certification.
