What is the Quarterly City Managers Report?

The **Quarterly City Managers Report** is a summary report on the finances and management of the City of Philadelphia. It is prepared under the direction of the Mayor's Office by the **Office of Budget and Program Evaluation**, in cooperation with the **Office of the Director of Finance** and the **Office of the Managing Director**. The report is based primarily on information provided to these agencies by City departments and agencies.

The purpose of the **Quarterly City Managers Report** is to provide the senior management of the City of Philadelphia with a clear and timely summary of the City's progress in implementing the financial and management goals of the current year of the City's Five-Year Financial Plan, both on a "Year to Date Actual" basis and on a "Forecast for Full Year" basis.

The **Quarterly City Managers Report** contains the following reports and schedules:

General Fund: The General Fund is the principal operating fund of the City of Philadelphia. (For an explanation of the City's overall financial fund structure, see "Methodology for Financial Reporting" elsewhere in this Report). The **Quarterly City Managers Report** presents an overview of General Fund revenues by major revenue source and obligations by department. Additional detail is provided regarding General Fund direct wage and salary obligations by department; General Fund purchase of service contract obligations; and General Fund overtime utilization. All reports present budget targets, year-to-date actuals and year-end forecasts.

Departmental Full Time Positions: The **Quarterly City Managers Report** includes a report on budgeted and filled full-time positions for all City departments on an All Funds basis. This report presents budget targets, year-to-date actuals and year-end forecasts.

Departmental Leave Usage and IOD Analysis: This section provides tables which show employee leave time as a percentage of the total number of days available to be worked in the quarter. Total leave usage, sick leave usage, and days lost to worker injury are analyzed separately.

Departmental Service Delivery Report: This report includes both quantitative measurements of departmental service levels and qualitative measurements of performance. This report compares service levels year-to-date with original departmental projections and year-end forecasts with original projections and the actual level of service in the prior year.

Water Fund and Aviation Fund: The Water Fund is the fund in which activities related to the City's water supply and wastewater disposal are reported. The Aviation Fund is the fund in which activities related to the operation of the Philadelphia International Airport and the Northeast Philadelphia Airport are reported. The **Quarterly City Managers Report** presents a quarterly overview of Water and Aviation Fund revenues by major revenue source and obligations by department at the end of the quarters concluding in September, December, March and June. All reports present budget targets, year-to-date actuals and year-end forecasts.

Grants Revenue Fund - Unanticipated Grants: A listing is included, of all unanticipated grants received and recorded in the City's Grants Revenue Fund during the preceding three months.

Cash Flow Forecast: Most financial reporting in the **Quarterly City Managers Report** is presented on a modified accrual basis, consistent with the City's accounting methodology. Under the City's modified accrual accounting rules, some revenues are reported on an accrual rather than a cash basis and obligations are recorded when encumbered or expended. To enable the reader to assess the City's actual current and projected year-end cash position, the City Managers Report also presents a cash flow forecast for the fiscal year. Actual cash results are presented for all months of the fiscal year for which cash receipt and disbursement activity has been recorded, and a projection is made for the balance of the fiscal year.

Management and Productivity Initiatives: In order to preserve and expand service levels, reduce obligations, increase revenues, improve efficiency and maintain a balanced budget, the City of Philadelphia has committed itself to the implementation of numerous management and productivity initiatives in its various departments and agencies. The **Quarterly City Managers Report** contains the following report, which presents the current and expected future results of various initiatives:

- **Productivity Bank Status Report**

This report provides information regarding the activities of the City's Productivity Bank, a program which permits City departments to apply for loans from a special City fund earmarked for departmental productivity improvements and service enhancement projects which are not eligible for Capital Budget funding and cannot be funded out of core departmental operating budgets without adversely affecting current levels of service delivery.

The FY08 Budget Process

Each year's City budget ordinance establishes spending ceilings for departments in each of the various budgetary funds, including the largest and most important fund, the General Fund. The Philadelphia Home Rule Charter requires that the aggregate spending ceiling for the General Fund not exceed the official revenue estimate for the fund. In other words, the Charter requires that the adopted General Fund budget be balanced or show a positive fund balance. Under the Charter, the official revenue estimate for each City fund is provided to City Council by the Mayor prior to the adoption of each year's Operating Budget.

Bill No. 070116-AA, the Fiscal Year 2008 Operating Budget Ordinance for the City of Philadelphia, was introduced on February 22, 2007, approved by City Council on June 14, 2007, and signed by the Mayor on June 22, 2007. The budget ordinance, therefore, was prepared more than four months before the beginning of Fiscal Year 2008 on July 1, 2007. This meant that the Administration had to make FY08 revenue and expense projections midway through FY07.

As in past years, the Administration engaged in a target budget process to create contingency funding within the guidelines of adopted budget appropriation, placing a small percentage of most departmental appropriations in reserve. For FY08, departments were asked to prepare target budgets with approximately a 1 percent decrease in spending. Given \$24.8 million in FY08 spending restorations in the November restatement of the FY08-FY12 Five Year Financial Plan—such as restoration of \$2.1 million in expenditures for essential police and fire department vehicles—the FY08 target budget reserve is \$13 million. FY08 revenues are coming in strongly, and the City projects a balanced budget with both additional costs and targeted savings taken into account. Since November 15, 2001, to weather the slow economic recovery and further prepare for looming budget challenges, the Administration has also imposed a hiring freeze on all City positions other than police officers, police communications dispatchers, firefighters, emergency medical technicians, correctional officers and social workers who carry caseloads. We are continuing to evaluate all non life-safety position requests on a case by case basis to manage spending to affordable levels.

Interpreting the FY07 Year End Fund Balance

Unaudited preliminary figures show the City's FY07 fund balance at positive \$297.9 million, increasing from \$254.5 million in FY06 as a result of a \$43.4 million operating surplus, after prior year adjustments. The FY07 operating surplus and positive fund balance are the result of budgetary initiatives, tax revenue growth, and other factors. Key among them are:

- **Containing staffing levels.** In FY07, despite containing staffing increases to 1 percent (23,050 positions) over FY06 levels, the cost of salaries and benefits grew \$207.5 million (10.3 percent). Increases were due to the impact of a negotiated 3 percent across-the-board salary increase (\$37.5 million); overtime cost over-runs (\$26 million), which grew 20.8 percent compared to the FY06 amount; and another \$12.6 million in settlement costs of union health and welfare reopeners, and termination of appeals of arbitration panel awards. The City worked to decrease or contain growing staff costs in FY07 through delays in hiring; continued strategic use of the Deferred Retirement Option Program (DROP), which allows departments to fill only one position for every

two DROP separations; and concerted scrutiny of requested increases in positions that were exceptions to the City's hiring freeze policy, in place since FY01.

- **Strong tax revenue growth.** Continued improvements in economic growth and corporate profits helped Business Privilege Tax revenue increased by \$20.9 million above the FY06 amount (\$415 million), ending FY07 at \$436.4 million, and coming in \$28 million above the budgeted amount. Supported by an improving economy and successful job retention efforts that have helped stabilize (FY07 average monthly increase 0.2 percent) local employment, Wage Tax revenue grew by 3.6 percent (net of rate reductions) in FY07, \$56.3 million higher than the FY06 total and \$26 million above the budgeted amount. A weak \$1.7 million increase in Real Estate Tax proceeds (\$397.5 million) reflected the continued lack of reassessment by the Board of Revision of Taxes. Real Estate Transfer Tax (RTT) revenue decreased by \$19 million, but exceeded the budget estimate, (\$210 million). RTT results, compared to budget and the prior year, indicate that the real estate market was beginning to cool, but was not in distress, compared to several other parts of the country confronting the foreclosure crisis. FY07 Sales, Amusement, Parking and other taxes brought in an additional \$6.2 million above the FY06 amount.

The Outlook for FY08 and Beyond

Philadelphia has avoided through careful fiscal management, the tax increases and lay offs that other major cities are now faces with. The City is continuing with its plan of moderate tax reductions. A variety of budgetary issues that were addressed in FY08 will continue to create challenges in future years. They include:

- **Future revenue growth constrained by planned tax reductions.** Fiscal Year 2008 is the thirteenth consecutive year of Wage and Business Privilege Tax reductions. The City of Philadelphia stands alone among major cities in continuing to reduce tax rates over a decade-long period that included a serious recession in the early 2000s that disrupted state and local government finances across the country. Although tax reductions are important to the health and competitiveness of Philadelphia, they have made the task of managing the City's finances even more difficult, when combined with perennially increasing pension, healthcare, and energy costs. In the first seven years of the tax reduction program, tax cuts were made on a year-by-year basis, which provided budgetary flexibility to respond to economic downturns and emergencies. In conjunction with the passage of the FY05 budget, however, legislation was enacted that prescribes specific wage tax reductions for each year through 2015. In addition, statewide tax reform legislation enacted in 2004 requires the City to make specific wage tax reductions each year through FY09. While state-specified reductions are consistent with reductions in legislation passed by City Council and signed by the Mayor, state imposition of changes in City tax rates restricts the City's budgetary flexibility.

From FY08 to FY12, planned business and wage tax cuts will eliminate \$1.7 billion in tax proceeds, compared to pre-1996 rates. In the FY08-FY12 Plan approved by PICA, BPT cuts beyond FY09 were eliminated, restoring \$12.5 million to the Plan. Despite the restoration, cumulative tax cuts from FY07-FY12 total \$1.97 billion (including \$450.9 million from planned reductions in FY08-FY12, alone). While this commitment, unique among the nation's cities, will

improve the city's competitiveness, the City also works leaner and smarter than it did in 2000, and the promise of renewed interest in City living and employment is being realized.

- **Millage Shift to the School District of Philadelphia (SDP).** To increase the SDP's ability to achieve a balanced budget, its share of millage was increased to 60 percent by transferring 1.69 mills from the City to the District, generating \$17.4 million more in FY08 revenue for the District, but creating a \$94 million revenue decrease in the City's Five Year Plan. In addition, the Administration pledged a \$2 million increase in the City's cash contribution to the District (to \$37 million annually), and assumption of \$8 million in social services contracts formerly in the SDP budget. While funds available to the City have decreased, the loss has been off-set by growth in other sources. With large out-year tax cuts in FY10-FY12, future District contributions will need to be weighed against City service requirements.
- **Increased criminal justice costs.** The City's criminal justice costs, spurred in part by a rising tide of violent crime in some areas of the city, are expected to continue to increase substantially in FY08, as they did in FY07. Together, Police, Prisons, Sheriff's Office, District Attorney's Office, and Defender's Association costs are projected to exceed planned spending by \$3 million in FY08, based on first quarter results. Much of the overage is due to growth in the Philadelphia Prison System's (PPS) inmate census. Since FY01, the average daily prison census has grown, while PPS's costs have grown by \$65 million, reaching \$208.4 in FY07. The FY08 Plan projects 5 percent growth in the census in FY08, and FY08-FY12 growth at less than 2.5 percent. Sustained census growth is a threat to the Five-Year Plan, as it is likely to drive contract and overtime spending beyond planned limits.
- **Pension fund performance.** Philadelphia's pension plan, like many defined benefit pension plans across the country over the past five years, has experienced a perfect storm, one formed by the post-911 downturn in the economy, poor stock market returns, record low interest rates, and the fact that employees enter retirement status earlier and live longer. The pension fund returned to adequate earnings in FY04. Despite the City's FY04 effort to manage the impact of fund performance on the General Fund by shifting its fund contribution to the "minimum municipal obligation" level, pension obligations are projected grow 14 percent over the life of the FY08-12 Plan. And in FY07, the City was compelled to lower its earnings rate assumption to 8.75 percent, to better reflect the market. As a result, pension costs will comprise 12.3 percent of projected General Fund revenues by FY09, up from 7 percent in FY03.
- **Increasing health benefits costs.** Labor contract awards, primarily those provisions regarding employee benefits, have resulted in marked growth in per-employee compensation over the past five years. Even with fewer General Fund employees, health insurance costs increased by 60 percent from FY01 to FY06. The Administration accepted an appeals court decision that emphasized the City's management rights, and also required the implementation of previously awarded health benefit increases to the International Association of Firefighters. In addition, the Administration settled health and welfare fund re-opener negotiations with District Councils 33 and 47 of the American Federation of State, County, and Municipal Employees, and negotiated items with the Fraternal Order of Police. All labor negotiations will yield a total FY08 impact of \$25.5 million (\$140.2 million over the life of the FY08-FY12 Plan). The cost base for the next round of labor negotiations has been raised, but many outstanding issues are now settled, clearing

the way for negotiations covering FY09 and beyond. The potential for union healthcare costs and arbitration awards to exceed projections in future years continues to represent a risk to the Plan.

- **The need to find additional efficiencies.** It has been customary for each new Five Year Financial Plan to assume significant savings through target reductions, which, since FY03, have included significant reductions in the workforce. As a result of a hiring freeze for non-essential positions that has been in place since FY02 and FY05 position eliminations, the General Fund workforce declined from 24,530 at the end of FY03 to 23,050 at the end of FY07, a decline of 1,480 over four years. As a result, today's City workforce has dropped to forty-year lows. The Plan projects that the City will maintain reduced workforce levels through the entire FY08-FY12 period, with some modest increases in staffing to meet increased workloads and compensate for attrition imperiling normal operations. Achieving additional cost efficiencies will be challenging, especially in the face of a continuing trend of increased violence in FY08. The first quarter of FY08 is showing the strains of increased overtime due to increased police presence in hot spots, more criminal investigations, recreation center maintenance and programming, and higher censuses in prisons and homeless shelters. Additional, unplanned tax reductions, increases in pension costs, or other negative structural changes in revenues or expenditures (such as shortfalls in state funding of human services programs) are likely to further constrain opportunities for new efficiency initiatives beyond those assumed in the FY08-FY12 Plan.
- **Risk of federal and state budget cuts.** Over the past decade, the City has been successful in increasing federal and state funding for many health and social service programs, including increased formula-based and competitive grant funding. Increased funding has allowed the City to maintain critical social services without substantial increases in local financial support. However, with FY08 Commonwealth health and social service funding lower than had been expected, the City is pursuing efficiencies to maintain a balanced FY08-FY12 Five-Year Plan and preserving the quality of services.
- **Increased volatility of the City's tax structure.** The increase in Business Privilege Tax revenue in FY07 appears to be driven by the larger role played by the net income portion of the tax, because of continuous reductions in the gross receipts portion since FY96. Net income proceeds are tied more directly to profitability than are gross receipts, and so are more like to reflect fluctuations in the national and local economy. Similarly, as a result of the rapid growth in Philadelphia property values, the Real Estate Transfer Tax has come to make up an increasingly large proportion of the City's tax revenue stream. However, the Transfer Tax depends not only on fluctuations in the value of property, but also on the number of property transactions, which vary considerably from year to year. The result of a growing dependence on more volatile revenue sources means that the City's tax revenue stream may be increasingly sensitive to business and economic cycles. This suggests the need for caution in interpreting the City's FY08 tax revenue performance and basing long-term financial policy on short-term effects.

In the present environment of continued challenges to the City's fragile financial progress, fiscal stability can be maintained only if we redouble our efforts to become increasingly efficient, keep spending under control, collect all revenues due the City, and sustain critical reimbursements from state and federal sources. Achieving the tenuous surpluses projected in the FY08-FY12 Five-Year

Plan and averting another fiscal crisis will require difficult choices, particularly as the larger wage tax cuts begin to take an accelerating effect in FY10 and beyond. Ensuring the continuity of service delivery and successfully maintain our improved fund balance will be a critical measure of fiscal health in the eyes of the nation. City managers, municipal union leaders, local elected officials, members of the media and the public should be skeptical of proposals to make recurring multi-year spending commitments or tax reductions that are not coupled with funding strategies or rely on speculative future revenues or savings.

The objectives of Philadelphia government are to:

- Maintain fiscal health with a steady rate of planned tax reduction
- Implement blight elimination and neighborhood transformation
- Provide high quality public education for all children, and comprehensive, coordinated services for all children and families
- Enhance public safety and quality of life standards for all communities
- Promote economic development, including a new emphasis on information technology, telecommunications, and biotechnology

In today's climate, staying on course to achieve these goals will require creativity, determination, perseverance, and dedication on the part of every City manager, every employee, and every citizen. It is essential that we all continue to work together to preserve the progress that has been made to improve the prospects for this City and its people.

*The 1st quarter results from Risk Management under review as of November 15, 2007, due to change in TPA.

Departments are ranked by the percent of days available to be worked that are lost because workers are on Injured on Duty (IOD) – no duty status.

This analysis is based on information contained in a report prepared by the Risk Management Division of the Finance Department. Risk Management's report on IOD provides numbers for entire departments. As a result, while the Sick and Total Leave reports divide Police into Uniformed and Civilian, and Streets into Sanitation and All Except Sanitation, the IOD report contains information on the entire departments.

Days lost and leave usage percentages are calculated by taking the number of days lost or used and dividing it by the total number of days available to be worked in the period. Leave usage numbers are taken from departmental reports and IOD days lost is taken from reports generated by the Division of Risk Management.

(17) Fewer complaints received in FY06.

(18) This measure includes pertussis and hepatitis B. Pertussis incidence is cyclical, with periods of high occurrence.

(19) Beginning in FY04, calculations use a new fine particulate standard. The lower percentage of good days that results from this standard does not indicate that the air quality has worsened compared to prior years.

(20) Recreation acquired six facilities from Fairmount Park in FY04. Winterized facilities are used part-time by the public, permitted out, and maintained by the Maintenance Division.

(21) This measure counts the number of pools in the inventory as of the last day of the quarter. As of 6/30/06, three of the 74 pools in the inventory were closed for repair.

Analysis of Year-to-Date Variances

| Category | Year to Date Variance Better / (Worse) Than Cur. Target | Reasons / Comments |
|-------------------------------------|--|--|
| Revenues | | |

| Revenues from Other Funds | \$9.9 | Variance is due to two reimbursements from the Capital Projects Fund: 1) \$6.5 million for prior year purchase of 33 jet bridges (30 from US Airways and 3 from United Airlines) that were initially paid from operating fund revenues, and 2) \$3.4 million in uncommitted prior year "pay-as-you-go" project funding. |
| Subtotal | (\$2.7) | |
| Obligations / Appropriations | | |
| Personal Services | \$1.6 | Variances: 1) Police - \$0.2 million, 2) Fire - \$0.1 million and 3) Commerce - \$1.3 are result of savings from the delay in filling vacancies through the first quarter of the fiscal year. |

METHODOLOGY FOR FINANCIAL REPORTING

QUARTERLY CITY MANAGERS REPORT

For the Period Ending September 30

METHODOLOGY FOR FINANCIAL REPORTING

A. FUND ACCOUNTING

Funds are groupings of activities that enable the city to maintain control over resources that have been segregated for particular purposes or objectives. All of the funds of the City of Philadelphia can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

- **Governmental funds.** The governmental funds are used to account for the financial activity of the city's basic services, such as: general government; economic and neighborhood development; public health, welfare and safety; cultural and recreational; and streets, highways and sanitation. The fund financial activities focus on a short-term view of the inflows and outflows of spendable resources, as well as on the balances of spendable resources available at the end of the fiscal year. The financial information presented for the governmental funds are useful in evaluating the city's short term financing requirements.

The city maintains twenty individual governmental funds. The city's Comprehensive Annual Financial Report presents data separately for the general fund, grants revenue fund and health-choices behavioral health fund, which are considered to be major funds. Data for the remaining seventeen funds are combined into a single aggregated presentation.

- **Proprietary funds.** The proprietary funds are used to account for the financial activity of the city's operations for which customers are charged a user fee; they provide both a long and short-term view of financial information. The city maintains three enterprise funds that are a type of proprietary funds - the airport, water and waste water operations, and industrial land bank.
- **Fiduciary funds.** The City of Philadelphia is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for the Gas Works' employees' retirement reserve assets. Both of these fiduciary activities are reported in the city's Comprehensive Annual Financial Report as separate financial *statements of fiduciary net assets* and *changes in fiduciary net assets*.
- **B. Basis of Accounting and Measurement Focus**

Governmental funds account for their activities using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the city considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as in the case of full accrual accounting. Debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is

QUARTERLY CITY MANAGERS REPORT

For the Period Ending September 30

METHODOLOGY FOR FINANCIAL REPORTING

due, however, those expenditures may be accrued if they are to be liquidated with available resources.

Imposed non-exchange revenues, such as real estate taxes, are recognized when the enforceable legal claim arises and the resources are available. Derived tax revenues, such as wage, business privilege, net profits and earnings taxes, are recognized when the underlying exchange transaction has occurred and the resources are available. Grant revenues are recognized when all the applicable eligibility requirements have been met and the resources are available. All other revenue items are considered to be measurable and available only when cash is received by the city.

Revenue that is considered to be *program revenue* include: (1) charges to customers or applicants for goods received, services rendered or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program specific revenues, therefore, all taxes are considered general revenues.

The city's financial statements reflect the following three funds as major **Governmental Funds**:

- The **General Fund** is the city's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in other funds.
- The **HealthChoices Behavioral Health Fund** accounts for resources received from the Commonwealth of Pennsylvania. These resources are restricted to providing managed behavioral health care to Philadelphia residents.
- The **Grants Revenue Fund** accounts for the resources received from various federal, state and private grantor agencies. The resources are restricted to accomplishing the various objectives of the grantor agencies.

The City also reports on **Permanent Funds**, which are used to account for resources legally held in trust for use by the park and library systems of the city. There are legal restrictions on the resources of the funds that require the principal to remain intact, while only the earnings may be used for the programs.

The City reports on the following **Fiduciary Funds**:

- The **Municipal Pension Fund** accumulates resources to provide pension benefit payments to qualified employees of the city and certain other quasi-governmental organizations.
- The **Philadelphia Gas Works Retirement Reserve Fund** accounts for contributions made by the Philadelphia Gas Works to provide pension benefit payments to its qualified employees under its noncontributory pension plan.

The City reports the following major **Proprietary Funds**:

QUARTERLY CITY MANAGERS REPORT

For the Period Ending September 30

METHODOLOGY FOR FINANCIAL REPORTING

The **Water Fund** accounts for the activities related to the operation of the city's water delivery and sewage systems.

- The **Aviation Fund** accounts for the activities of the city's airports.
- The **Industrial Land Bank Fund** accounts for the activities of the city's inventory of commercial land sites.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's ongoing operations. The principal operating revenues of the Water Fund are charges for water and sewer service. The principal operating revenue of the Aviation Fund is charges for the use of the airport. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. The principal operating revenues of the Industrial Land Bank Fund come from sales of land sites, while the operating expenses are comprised of land purchases and improvements made thereon. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

C. Legal Compliance

The city's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). In accordance with the Philadelphia Home Rule Charter, the city has formally established budgetary accounting control for its operating and capital improvement funds.

The operating funds of the city, consisting of the General Fund, seven Special Revenue Funds (County Liquid Fuels Tax, Special Gasoline Tax, HealthChoices Behavioral Health, Hotel Room Rental Tax, Grants Revenue, Community Development and Car Rental Tax Funds) and two Enterprise Funds (Water and Aviation Funds), are subject to annual operating budgets adopted by City Council. Included with the Water Fund is the Water Residual Fund. These budgets appropriate funds for all city departments, boards and commissions by major class of expenditure within each department. Major classes are defined as: personal services; purchase of services; materials and supplies; equipment; contributions, indemnities and taxes; debt service; payments to other funds; and advances and other miscellaneous payments. The appropriation amounts for each fund are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. All transfers between major classes (except for materials and supplies and equipment, which are appropriated together) must have councilmanic approval. Appropriations that are not expended or encumbered at year-end are lapsed.

The City Capital Improvement Fund budget is adopted annually by the City Council. The Capital Improvement budget is appropriated by project for each department. All transfers between projects exceeding twenty percent of each project's original appropriation must

For the Period Ending September 30

METHODOLOGY FOR FINANCIAL REPORTING

be approved by City Council. Any funds that are not committed or expended at year-end are lapsed.

Schedules prepared on the legally enacted basis differ from the generally accepted accounting principles (GAAP) basis in that both expenditures and encumbrances are applied against the current budget, adjustments affecting activity budgeted in prior years are accounted for through fund balance or as reduction of expenditures and certain interfund transfers and reimbursements are budgeted as revenues and expenditures.

D. CITY MANAGERS REPORTS

Projected revenues and obligations reflected on the City Managers Reports are consistent with the above legal basis of Accounting and include all appropriate accruals.

Actual monthly revenue figures do not include revenues measurable and available within 60 days after the month end because it would be impractical to issue timely reports using this method of accrual.

Actual monthly expenditures do not include accounts payable (amounts owed to providers of goods and services which have not been vouchered on the City's accounting records). These amounts, however, are reflected in the encumbrances outstanding for each City agency.

Interfund service charges, an annual expense budgeted in certain City departments, are not included in the actual monthly obligations, but as stated above, are projected in the City's annual costs.

However, the survey results were unclear as to the direct impact that the actual Bank-funded advertising had on visits. Repayment was made by the Finance Department in FY2000. |

(1) Estimates shown are for the first five years of project after full implementation. Most projects generate long-term cost savings or revenue increases.
 (2) ES reflects expenditures saved due to project implementation. RE reflects revenue enhancement. Some loans project both expenditure savings and revenue enhancements.
 (3) Service-level improvement loans are projected to generate substantial and measurable service improvements. Cost savings/additional revenues have not been quantified.
 (4) First-year amount reduced by additional project expenses not included in the original estimates.
 (5) Due to the timing of the exhibition, actual benefits were split between FY99 and FY00. However, for recording purposes, the Bank has recorded all benefits as FY00.
 (6) Due to implementation difficulties, loan was full prepaid by Streets Department in FY04. Productivity Bank will continue to monitor the project and assess its impact.
