

#11-03-10-002: Information on Revised Tire Replacement Recommendations for 2WD Tahoe Police Pursuit Vehicle - (Feb 3, 2011)

Information on Revised Tire Replacement Recommendations for 2WD Tahoe Police Pursuit Vehicle

Subject:

Models: 2008-2011 Chevrolet Tahoe

Equipped with RPO PPV, QAR, QVT

Tire Usage Change

Chevrolet Tahoe Police Pursuit Vehicles built before January 17th, 2011 were equipped with Goodyear H-speed rated tires (RPO QVT) (GM P/N 19162484). Vehicles produced after this date are equipped with Goodyear V-speed rated tires (RPO QAR) (GM P/N 19254959). Vehicles originally equipped with H-speed rated tires should continue to be serviced with H-speed rated tires until stock of this tire is depleted.

Tire Recommendations

Once the stock of H-speed rated tires is exhausted, use of the V-speed rated tire is approved to service vehicles originally equipped with the H-speed rated tire. Performance characteristics of these tires are the same, making it acceptable to intermix the V-speed rated tires on the vehicle with the previous H-speed rated tires.

Notice: Vehicles built after January 17th, 2011 and originally equipped with V-speed rated tires should **ONLY** be serviced with the V-speed rated tire.

Parts Information

Tires are in stock and available for regular order. Dealers in the U.S. may also obtain through the GM Tire Resource Center at 1-877-728-4737.

Part Number	Description
19162484	Tire, Goodyear #732605500 H-speed rated (RPO QVT)
19254959	Tire, Goodyear #732301500 V-speed rated (RPO QAR)

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
