Rates of return to human capital investment

Department of Public Health

■ Access to health care for all

- Medical home
- Prescription services
- Prenatal care
- Behavioral health care
- Health insurance
- Health information availability

■ Healthy homes/neighborhoods

- Animal control
- Vector control
- Maternal, child, family health
- Chronic disease prevention

■ Death investigation

- Co-sleeping
- Fatality reviews

■ Nutrition and food plan

- Food safety
- Smoking ban
- Trans-fat ban
- Nutrition labeling
- Obesity and food security

■ Disease Control

■ HIV Prevention and Care

■ Air quality

■ Health planning

■ PNH/Riverview

■ Board of Health

Continuum of Prevention

Primary Prevention
for all

- Immunization
- Food quality
- Air quality management
- Ambulatory health

Secondary
Prevention for
those at risk

- Lead poisoning prevention
- STD screening
- Targeted home visiting
- Ambulatory health

Tertiary
Prevention for
those affected

- TB control
- Philadelphia Nursing Home
- Vector Control
- Ambulatory health

Health and Opportunity

Operating Principles

- **Service delivery in a context of prevention**
- **Family-focused interventions to promote child and community well-being**
- **Best-practices**
- **Community-partnered**
- **Emphasis on cost-effective programming**
- **Cross-agency collaboration**
- **Live within a budget**

Key Outcomes

- Every child will enter kindergarten ready to learn through investment in families
- Every 18 year-old will graduate from high school
- Every senior will feel safe at home
- Every Philadelphian will have a home
