

CERTIFIED REGISTERED NURSE PRACTITIONER

GENERAL DEFINITION

This is advanced level nursing work, providing comprehensive patient care in the area of specialization. Employees in this class perform physical examinations and assessments within the parameters of licensure and program protocols. Work includes medical diagnosis and prescription of medical therapeutic or corrective measures in collaboration with and under the direction of a licensed physician, educating patients in general health care practices within the area of specialization, and securing and maintaining cooperation of patients. Formulating plans and prognoses and prescribing or recommending drugs or other forms of treatment are significant aspects of the work. Work is performed under the technical supervision of a physician.

ALLOCATING FACTORS: (The following conditions must be met for a position to be approved for this class.)

- Duties must be performed in accordance with medical standing orders and program protocols.
- Positions in this class must report to a licensed physician.
