

PENNSYLVANIA

RECYCLING RESOURCES FOR SALVAGE YARDS

How to Use this Directory

This directory consists of two sections: the first section provides the names of recycling providers organized by the material type, while the second section provides an alphabetical listing of the companies listed in the first section, along with available contact information.

Additional Services

Additional companies and services may handle these and other materials not listed in this directory such as transmission fluid and filters, brake fluid and window cleaner. Most auto-related businesses, such as service stations, Jiffy Lubes and AutoZones, provide drop-off points for these materials. Please check with your local drop-off location to determine if they will accept these materials from auto recyclers.

Disclaimer

The following directory is provided solely as a service to the user and is intended to help auto recyclers find markets for their unwanted salvage. The City of Philadelphia, the Pennsylvania Department of Environmental Protection and EPA do not believe this to be a complete list of available services. In certain instances, vendors in this directory may be intermediary collection centers as opposed to material processors. Furthermore, the City of Philadelphia, the Pennsylvania Department of Environmental Protection and EPA do not endorse nor guarantee the products or services of any of the companies listed in this directory, nor imply that the vendors are or are not in compliance with applicable laws. All generators are responsible for ensuring that companies they use comply with the requirements of state and federal law

MATERIAL CATEGORY

Antifreeze
