SEPTA and the City of Philadelphia are sponsoring a study to determine ways to improve transit service between Parkside and Center City to better serve these communities and provide access to the cultural institutions in the Park and along the Parkway. The corridor is centered on a potential route that includes 52nd Street, Parkside Avenue, Girard Avenue, the City Branch Right-of-Way, Franklinton Boulevard, 17th Street, Race Street, 12th Street, Arch Street and 18th Street and will serve neighborhoods in Parkside, the Art Museum area, Brewerytown, Fairmount, and Chinatown.

Please join us at either of the two community meetings to find out more about the project, including potential corridor transportation alternatives, and to provide your vital input.
