

Stepping into NATURE!

Summer 2013

Summer camps in Philadelphia Parks & Recreation are invited to schedule a “**Stepping into Nature**” trip this summer at the Park’s environmental education centers. Your campers will take a nature ramble along wooded trails, discover wildlife and plants in the park, and learn why clean streams are so important for wildlife and YOU!

Spaces are limited, so call early to make your reservation. Programs are *FREE!*

Time

Programs begin at **10 am** and are approximately 1 ½ hours.

To make your experience at the environmental centers a full day (10am – 2pm), you can bring a brown-bag lunch to eat outdoors, enjoy play time in the field on your own, and then a supervised activity in the afternoon by our staff.

Scheduling your trip

To schedule a trip, contact Wissahickon or Pennypack Environmental Center.

Wissahickon Environmental Center
