

Philadelphia Continuum of Care 2016 Housing Inventory Chart

The accompanying tables reflect the complete inventory, as of January 31, 2016, of Emergency, Transitional, Permanent, Permanent Supportive, and Rapid Re-housing Programs within the Philadelphia Continuum of Care.

Key: Project Type

Emergency Housing (ES): Any facility that the primary purpose of which is to provide temporary shelter for the homeless in general or for specific subpopulations of the homeless, while they prepare to move into more stable housing. The housing and services are typically provided for up to 90 days or until specific goals are accomplished by the client.

Transitional Housing (TH): Is one type of supportive housing used to facilitate the movement of homeless individuals and families to permanent housing. It is housing in which homeless persons may live up to 24 months and receive supportive services that enable them to live more independently. The supportive services may be provided by the organization managing the housing or provided by other public or private agencies.

Safe Haven (SH): Serves hard-to-reach homeless persons who have severe mental illness, are on the streets and have been unable or unwilling to participate in supportive services. The program provides 24-hour residence for an unspecified duration. Safe Havens do not require participation in services and referrals as a condition of occupancy. Rather, it is hoped that after a period of stabilization in a safe haven, the resident will be more willing to participate in services and referrals and will eventually be ready to move to more traditional form of housing.

Permanent Supportive Housing (PSH): Long-term (not time-limited) housing in which supportive services are provided to assist homeless persons with a disability to live independently. At least one adult or child in the household must have a disability to qualify for permanent supportive housing.

Other Permanent Housing (OPH): Long-term (not time-limited) housing in which supportive services are provided to assist homeless persons to live independently. Having a disability is **not** an eligibility requirement for PH.

Rapid Re-Housing (RRH): Rapidly rehouses persons who are homeless into private market housing. Provides rental assistance and supportive services on a time-limited basis.

HMIS Beds: A bed is considered an "HMIS Bed" if the provider is entering data into HMIS on the clients served. The Homeless Management Information System (HMIS) is a computerized data collection system that tracks services received by homeless people, helps identify gaps in services within the continuum, and allows for greater collaboration among service providers as the system provides a "history" of a homeless person's involvement in the system of care. This system is required by HUD for all continuums of care.

PIT Count: Number of persons in the program on the night of the Annual Homeless Point in Time Count (January 27, 2016).

Utilization Rate: Calculated based on the program's total bed capacity (including year-round, seasonal, and overflow beds) and the number of beds occupied on the night of the point-in-time count.
