

# STAND UP! BE COUNTED! LET'S MAKE A CHANGE!

If you or someone you know is experiencing homelessness (house-hopping, living in a shelter, staying with friends...), please come check out one of these free events! There will be resources available, giveaways, and light refreshments!

This project is presented by a coalition of community agencies in Philadelphia who are committed to ending youth homelessness. The purpose of this project is to estimate the size of the population who needs services such as housing and critical life supports.
