**Grant Objective**

To develop a modern Human Resources System (HRIS) with rule tables, automated workflows, end-user tools integrated into the City's Payroll and Pension systems. HRIS will enable the City to reduce (from 447 to 400 or less) the staff supporting this business function. Many activities would be completely automated, and no longer require staff intervention. The system would also eliminate mini-HRIS's currently operating in several City departments. Es. Five year saving \$11.7 million.

**Major Objectives**

To conduct a comprehensive analysis of and make recommendations regarding reforms to the Philadelphia Zoning Code.

To analyze the Zoning Code to determine each section's intent and impact on residential, commercial and industrial development, the costs associated with the Zoning Board of Adjustment including current caseload, and whether the code may be consolidated and simplified with community input and neighborhood controls.

To compare the Zoning Code to codes in other jurisdictions that have experienced growth in residents and businesses using accepted models of analysis.
