#### LETTER OF TRANSMITTAL

March 22, 2011

City of Philadelphia Municipal Retirement System Two Penn Center Plaza – 16<sup>th</sup> Floor Philadelphia, PA 19102-1721

Dear Board Members:

At your request, we have performed the July 1, 2010 actuarial valuation of the City of Philadelphia Municipal Retirement System.

In preparing our report, we relied without audit, on information (some oral and some written) supplied by the System's staff. This information includes, but is not limited to, plan provisions, employee data, and financial information. The results of this report are only applicable to the System's contribution for Fiscal Year Ending 2012, and rely on future plan experience conforming to the underlying assumptions. To the extent that actual plan experience deviates from the underlying assumptions, the results will vary accordingly.

We hereby certify that, to the best of our knowledge, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board, and that we meet the Qualification Standards, as defined by the American Academy of Actuaries, to render the opinion contained in this report.

Finally, in preparation of this report we have accepted the assumptions and methodologies as adopted by the Board of Pensions and Retirement for the City of Philadelphia Municipal Retirement System.

Sincerely, Cheiron

Kenneth A. Kent, FSA, FCA, EA, MAAA Principal Consulting Actuary

200G. 201

Karen Zangara, FSA, EA, MAAA Consulting Actuary

Karen Zangara

#### SECTION I BOARD SUMMARY

The primary purpose of the actuarial valuation and this report is to disclose the following as of the valuation date:

- The financial condition of the City of Philadelphia Municipal Retirement System,
- Past trends and expected future trends in the Retirement System's financial condition,
- The City's required contribution for Fiscal Year End (FYE) 2012,
- The Retirement Board's Funding Policy recommended City contribution, and
- Information required by the Governmental Accounting Standards Board (GASB).

In this Section, we present a summary of the principal valuation results. This includes the basis upon which the July 1, 2010 valuation was completed and an examination of the current financial condition of the System. In addition, we present a review of the key historical trends followed by the System's projected financial outlook.

#### SECTION I BOARD SUMMARY

#### A. Valuation Basis

The June 30, 2010 valuation results are based on the same methods used in the June 30, 2009 valuation as outlined in the report reflecting the amendments made under Act 44 to the Act 205 funding requirements through the addition of Chapter 10. The actuarial assumptions have been updated to reflect the new assumptions approved by the Retirement Board, as presented in the Experience Study Results and Recommendations Report from April 2010. The following outlines the basic assumption changes. For a detailed description of these assumption changes, refer to Appendix C of this report.

- Interest Rate: The interest rate decreased from 8.25% to 8.15%.
- Salary Increase Rate: The salary increase rate changed from 5.00% to an age-based salary table.
- Payroll and Expenses Growth: The payroll and expenses growth assumption decreased from 4.00% to 3.50%.
- **Demographic Actuarial Assumptions:** Demographic assumption changes such as the retirement rates, termination rates, disability rates and mortality rates were updated. A detailed list of these assumption changes is located in Appendix C of this report.

A plan change is reflected in this year's report for the first year which provides for Police participants hired after January 1, 2010 to elect to participate in Plan '10 or Plan 87 with a higher member contribution rate. All participants opted to participate in Plan 87 with the increased employee contributions of 6%.

Below we highlight significant outcomes of this valuation. Table I-1 summarizes these results:

- *Unfunded Actuarial Liability (UAL)*: The UAL is the excess of the System's actuarial liability (AL) over the actuarial value of assets (AVA). The UAL increased from \$4.933 billion as of July 1, 2009 to \$4.936 billion as of July 1, 2010 reflecting the net of asset gains from July 1, 2009 through June 30, 2010 offset by the increase in the AL due to the 10 basis point decrease in the interest rate and the change in the other actuarial assumptions.
- *Funding Ratio*: This is the ratio of the System's AVA to AL. The funding ratio increased from 45.0% as of July 1, 2009 to **47.0% as of July 1, 2010** due to the asset gains.
- Minimum Municipal Obligation (MMO) excluding deferred contribution interest: The MMO is the required minimum amount the City must contribute under Pennsylvania State law before application of amendments specific to the System. The FYE 2011 MMO provided in this report does not reflect possible deferrals of a portion of the MMO up to \$80 million, as permitted per Act 44. However, the interest on the FYE 2010 deferred contribution of \$150 million has been reflected as a separate line item for the MMO exhibit provided in Table I 5. The MMO decreased from \$511.0 million for FYE 2011 to \$507.0 million for FYE 2012 before accounting for the interest due on the deferred contribution.

#### SECTION I BOARD SUMMARY

- Minimum Municipal Obligation (MMO) including deferred contribution interest: After reflecting the interest of the FYE 2010 deferred contribution, the MMO for FYE 2011 is \$536.8 million and for FYE 2012 is \$519.3 million. Two years worth of interest, \$25.7 million, is included in the FYE 2011 MMO amount because the interest was not paid in FYE 2010. This interest only reflects the \$150 million FYE 2010 deferred contribution. If additional deferrals are made during FYE 2011, then this interest would increase the FYE 2011 MMO amount. Under Section 1002 (D) and (G) of the Act 205 Code, interest for deferred contributions are to be added to the MMO, and if the interest payment is deferred, then these amounts should be added to the next year's MMO amount.
- Annual Act 205 Reporting: under Section 1002 of Act 205, the City is required to provide annual reports to the Pennsylvania Employee Retirement Commission (PERC). Thus, the City will need to recognize gains and losses annually to determine the amortized unfunded, as opposed to biennially.
- Contribution under the City's Funding Policy: The beginning-of-year contribution under the City's Funding Policy increased from \$675.1 million for FYE 2011<sup>1</sup> based upon actual FYE 2011 payroll to an estimated **\$690.0 million for FYE 2012**.

| Table I-1 Key Results (\$ thousands)                               |          |                    |          |                    |  |  |  |  |  |

| Valuation Date                                                     |          | 7/1/2010           |          | 7/1/2009           |  |  |  |  |  |
| Unfunded Actuarial Liability                                       | \$       | 4,936,172          | \$       | 4,932,932          |  |  |  |  |  |
| Funding Ratio                                                      |          | 47.0%              |          | 45.0%              |  |  |  |  |  |
| Fiscal Year Ending in Year                                         |          | 2012 2011          |          |                    |  |  |  |  |  |
| Minimum Municipal Obligation* City's Funding Policy Contribution** | \$<br>\$ | 519,331<br>690,017 | \$<br>\$ | 536,775<br>675,065 |  |  |  |  |  |

<sup>\*</sup> Includes interest on the FYE 2010 deferred contribution of \$150 million. Interest for two years for the FYE 2011(\$25.7 million) and interest for one year for FYE 2012 (\$12.4 million).

<sup>&</sup>lt;sup>1\*\*</sup>The City's funding contribution for FYE 2011 was updated based upon the actual payroll of \$1,421.2 million (provided as pay rates in the data) as of July 1, 2010, which is used to estimate the beginning of year FYE 2011 payroll. In the July 1, 2009 actuarial valuation report, the estimated FYE 2011 payroll was \$1,521.8 million based upon July 1, 2009 pay rates and increased based upon the payroll assumption, which was used to estimate the FYE 2011 funding contribution of \$682.3 million.

#### SECTION I BOARD SUMMARY

#### **B.** Current Financial Condition

On the following pages, we summarize the key results of the July 1, 2010 valuation and how they compare to the results from the July 1, 2009 valuation.

### 1. City Membership:

As shown in Table I-2 below, total membership in the Retirement System decreased by 0.3% from 2009 to 2010.

| Table I-2 Membership Total July 1, 2010 July 1, 2009 % Change |          |               |    |               |       |  |  |  |  |  |  |
|---------------------------------------------------------------|----------|---------------|----|---------------|-------|--|--|--|--|--|--|
|                                                               | % Change |               |    |               |       |  |  |  |  |  |  |
| Actives                                                       |          | 27,928        |    | 28,632        | -2.5% |  |  |  |  |  |  |

| Disabled                                                      |          | 4,280         |    | 4,288         | -0.2% |  |  |  |  |  |  |
| Retirees                                                      |          | 21,064        |    | 21,214        | -0.7% |  |  |  |  |  |  |
| Beneficiaries                                                 |          | 8,558         |    | 8,554         | 0.0%  |  |  |  |  |  |  |
| DROP                                                          |          | 2,018         |    | 1,638         | 23.2% |  |  |  |  |  |  |
| Total City Members                                            |          | 65,447        |    | 65,662        | -0.3% |  |  |  |  |  |  |
| Annual Salaries                                               | \$       | 1,421,150,868 | \$ | 1,463,259,769 | -2.9% |  |  |  |  |  |  |
| Average Salary per Active Member                              | \$       | 50,886        | \$ | 51,106        | -0.4% |  |  |  |  |  |  |
| Annual Retirement Allowances                                  | \$       | 615,241,359   | \$ | 605,992,742   | 1.5%  |  |  |  |  |  |  |
| Average Retirement Allowance                                  | \$       | 18,148        | \$ | 17,794        | 2.0%  |  |  |  |  |  |  |

The active participant population decreased 2.5% during the 2009 – 2010 plan year. About half of them became members of the DROP resulting in a total increase in DROP participants of about 23%. Furthermore, the average salary per active member decreased by 0.4% during the plan year, which is significantly below the assumed salary scale. The combined result of lower active membership and salary growth produced a decrease in the total payroll growth which was lower than expected at -2.9% versus the 3.5% payroll growth assumption.

Annual retirement allowances continued to increase by 1.5% this year.

#### SECTION I BOARD SUMMARY

#### 2. City Assets and Liabilities:

Table I-3 presents a comparison between the July 1, 2010 and July 1, 2009 System assets, liabilities, UAL, and funding ratios. The Funding Ratio increased from 45.0% as of July 1, 2009 to **47.0%** as of July 1, 2010 due to the higher than expected assets returns, although this was partly offset by the increase in liabilities from the change in assumptions.

The July 1, 2010 market value of assets includes the \$150 million deferred contribution from FYE 2010.

| Table I-3 Assets and Liabilities (\$ thousands) |    |              |    |              |          |  |  |  |  |  |  |

| ,                                               | \$ | 4,936,172    | \$ | 4,932,932    | 0.1%     |  |  |  |  |  |  |
| Funding Ratio                                   |    | 47.0%        |    | 45.0%        | 2.0%     |  |  |  |  |  |  |

<sup>\*</sup> The PAF is available for distribution under title §22-311 of the Philadelphia Code. In general, the PAF provides for enhanced benefit distribution to retirees and beneficiaries through the use of excess earnings. For more details on the PAF, see Section II – E.

The market asset value (net of the Pension Adjustment Fund (PAF)) average return was 13.8% compared to the 8.25% assumption. For the actuarial value of assets, the experience gains and losses are smoothed over future years, which yielded an initial return rate for the preliminary actuarial value of assets of 14.8%. However, the final actuarial of assets is limited by the 20% corridor around the market value of assets, prohibiting the use of an actuarial asset value that is 20% more or less than the market value, which caused the final actuarial value of assets to return to be 12.9% over the prior year.

#### SECTION I BOARD SUMMARY

#### 3. Components of UAL Change between July 1, 2009 and July 1, 2010:

The Retirement System's unfunded actuarial liability increased by \$3.3 million, from \$4,932.9 million as of July 1, 2009 to \$4,936.2 million as of July 1, 2010. Table I-4 below presents the specific components of this change in the UAL.

The System experienced a \$201.9 million investment gain based upon the actuarial value of assets and a \$8.6 million liability loss. There was also a \$151.2 million liability increase due to the assumption change of decreasing the interest rate from 8.25% to 8.15% along with various demographic assumption changes as shown in Appendix C. Actual FYE 2010 contributions created a \$31.6 million loss when compared to the MMO expected because of lower contributions as a function of lower payroll. This is combined with a \$55.3 million loss due to the one year deferral of gains and losses under the MMO contribution method for a total increase in the UAL for contributions.

|    | Table I-4<br>Change in Unfunded Actuarial Liability<br>(\$ millions)        |    |         |  |  |  |  |  |  |  |  |

|    | Experience                                                                  |    |         |  |  |  |  |  |  |  |  |
| 1. | UAL change due to investment (gain)/loss                                    | \$ | (201.9) |  |  |  |  |  |  |  |  |
| 2. | UAL change due to overall liability (gain)/loss                             |    | 8.6     |  |  |  |  |  |  |  |  |
|    | Contributions                                                               |    |         |  |  |  |  |  |  |  |  |
| 3. | UAL change to difference in benefit accruals, MMO contributions, and timing |    | 31.6    |  |  |  |  |  |  |  |  |
| 4. | UAL change due to one-year delay in MMO contributions                       |    | 55.3    |  |  |  |  |  |  |  |  |
|    | Assumption Change                                                           |    |         |  |  |  |  |  |  |  |  |
| 5. | UAL change due to assumption change                                         |    | 151.2   |  |  |  |  |  |  |  |  |
|    | Total                                                                       |    |         |  |  |  |  |  |  |  |  |
| 6. | Total net overall change: sum 1 through 5                                   | \$ | 44.8    |  |  |  |  |  |  |  |  |
| 7. | Expected change in UAL                                                      |    | (41.5)  |  |  |  |  |  |  |  |  |
| 8. | Net increase/(decrease) in UAL: 6 + 7                                       | \$ | 3.3     |  |  |  |  |  |  |  |  |

The \$8.6 million liability loss is attributable to the following:

- \$14.7 million demographic gain from decreased active population and less than expected average pay increases.
- \$23.3 million loss due to existing retirees.

#### SECTION I BOARD SUMMARY

#### 4. Contributions:

The contribution under the City's Funding Policy for FYE 2011 was originally estimated to be \$682.3 million based upon estimated FYE 2011 payroll. Using updated payroll, the FYE 2011 contribution is \$675.1 million. For Fiscal Year 2012, the funding policy contributions decreased by 0.59% of payroll, from 47.50% to 46.91%. In dollar terms, the contributions under the City's Funding Policy increased from \$675.1 million to \$690.0 million, a \$14.9 million increase. The FYE 2012 contributions under the City's Funding Policy will be updated next year when the actual payroll is available. All contributions for the City's Funding Policy are provided as of the beginning of the year.

The Minimum Municipal Obligation for FYE 2012 measured as of the beginning of the year increased by 0.04% of payroll, from 35.27% to 35.31% which includes interest on the deferred contributions. In dollar terms, the required beginning of year contribution decreased from \$536.8 million to \$519.3 million, a \$17.5 million decrease in part because of the lower interest payment due to the doubling up for 2011. These values do not reflect any additional interest due for anticipated additional contribution deferrals by the City in FYE 2011.

#### SECTION I BOARD SUMMARY

In Section IV of this report, we provide more detail on the development of these contributions.

| Table I-5<br>Contributions<br>(\$ thousands)                   |      |                         |              |    |           |          |  |  |  |  |  |

Assuming beginning-of-year payment.

<sup>&</sup>lt;sup>2</sup> FYE 2011 payroll for the City's Funding Policy is based upon the July 1, 2010 pay rates and will be finalized when the FYE 2011 payroll is available. All other payroll is estimated based upon the prior year's data used for the actuarial valuation.

<sup>&</sup>lt;sup>3</sup> The MMO does not include Quasi-Agency contributions.

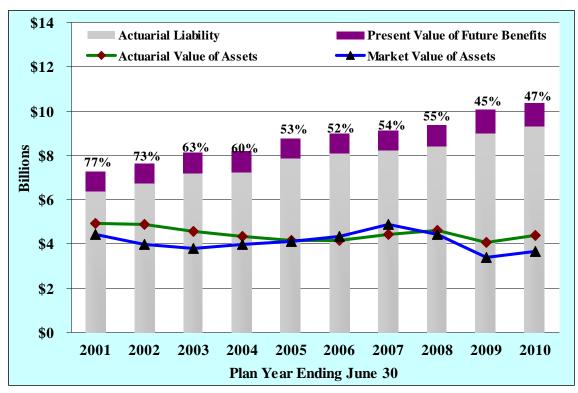

Interest on the deferred contributions is due on all amounts outstanding by fiscal year end calculated from the beginning of the fiscal year such deferred contributions are still outstanding by year end. This amount will need to be determined and added as part of the MMO.

#### SECTION I BOARD SUMMARY

#### C. Historical Trends

Although most of the attention given to the valuation reflects the most recently computed unfunded actuarial liability, funding ratio, and contribution amounts, it is important to remember that each valuation is merely a snapshot of the long-term progress of a pension fund. It is equally important to judge a current year's valuation result relative to historical trends, as well as trends expected into the future.

In the chart below, we present the historical trends for the market and actuarial value of assets compared to the actuarial liabilities and present value of future benefits; we also show the progress of the Retirement System's funding ratios (provided above each bar) since 2001.

City of Philadelphia Assets\* and Liabilities - 2001 to 2010

The System's funding ratio has declined significantly since 2001. In 2009, the funding ratio declined by 10% due to the investment losses during the year and the change in the actuarial liability interest rate assumption. In 2010, the funding ratio increased by 2% due to strong investment returns, which was partially offset by the increased actuarial liability due to the assumption changes.

This historic trend emphasizing the funded status has continued to decline, increasing the risk of insolvency if contributions coupled with more stable and favorable returns relative to the long-term assumption are not realized in the near future.

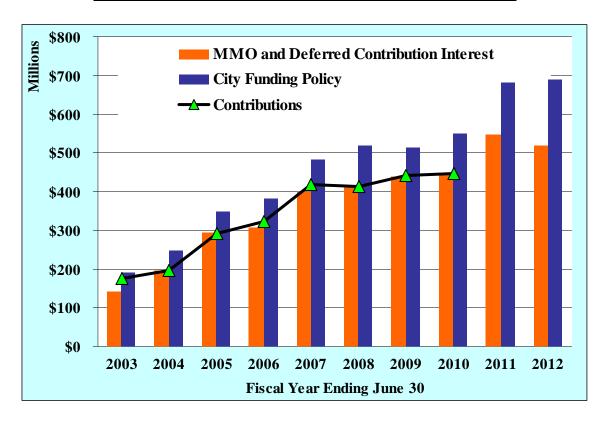

<sup>\*</sup> Market value of assets includes the PAF, which is not available for funding purposes.

#### SECTION I BOARD SUMMARY

In this next chart we present historical trends for the Minimum Municipal Obligation (MMO), the contribution under the City's Funding Policy, and the actual contribution made for fiscal years since 2003. Because there is a two-year lag in the determination of the City Funding Policy and MMO requirements, we show the contributions to date and the estimated amounts for fiscal years 2011 and 2012. The FYE 2010 contribution includes the \$150 million deferred contribution.

#### City of Philadelphia Contributions for Fiscal Years 2003-2012

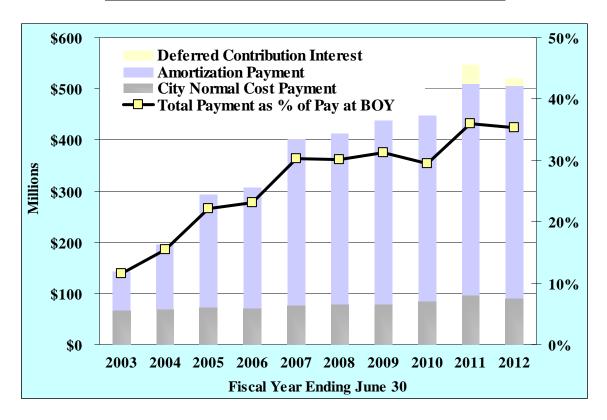

The key trend illustrated in this chart is the rapid escalation in all three measures starting in FYE 2004 due in part to investment losses and the City's funding decision. Since 2004 the City began to make contributions based on the MMO rather than the Funding Policy which has resulted in the Funding Policy amounts increasing more rapidly than the MMO. This is especially evident for FYE 2011 contributions, where the City's Funding Policy contributions increased about \$130 million. In addition, the MMO and City's Funding Policy amounts for FYE 2011 increased significantly due to the investment losses, as well as an increase of \$25.8 million for the interest on the deferred contribution. For FYE 2012, the MMO decreased due to the improved funding ratio for the plan, and interest on contribution deferrals are \$12.3 million for one year.

#### SECTION I BOARD SUMMARY

The chart below shows historical amortization, City normal cost payments, and the deferred contribution interest under the MMO. Also shown is the total beginning-of-year payment as a percentage of payroll based on the values in the legend on the right versus the line graph. For example in 2012 the City cost is expected to be just over 35% of payroll.

#### MMO Contributions by Source for Fiscal Years 2003-2011

The chart illustrates that the City normal cost payment has remained relatively level over the period shown. The amortization payment to pay off the unfunded actuarial liability has increased from just under \$80 million for FYE 2003 to just over \$417 million for FYE 2012. The total payment as a percentage of payroll is now above 35%, up from about 12% in FYE 2003. The amortization payment increased slightly from the amount due in FYE 2011 to the amount due in FYE 2012, but the total payment decreased because 2011 reflects two years of interest due on the deferred contributions.

#### SECTION I BOARD SUMMARY

#### **D.** Projected Financial Trends

Our analysis of the City of Philadelphia Municipal Retirement System's projected financial trends is an important part of this valuation. In this section, we present our assessment of the implications of the July 1, 2010 valuation results on the future outlook in terms of benefit security (assets over liabilities) and the City's expected cost progression.

In the charts that follow, we project the Retirement System's assets and liabilities, and the City's contributions as a percent of payroll. Unless otherwise noted we assume the MMO contributions are made each year. Our illustrations assume the provisions of Act 205 as amended by Act 44 remain in force during the projection period without consideration of the sunset provisions.

The projections are provided on two different asset return assumption bases:

- 1) Assuming 8.15% returns each and every year, and
- 2) Assuming returns shown in the table below. These are rates of return which vary each year but over the projection period equal on average the assumed 8.15% return. We do this because the City's return will never be level from year to year and the System must anticipate the implications of asset return volatility to the funded status and contribution requirements.

| Fiscal Year<br>Beginning | 2010  | 2011 | 2012  | 2013  | 2014  | 2015  | 2016  | 2017  | 2018  | 2019  |
|--------------------------|-------|------|-------|-------|-------|-------|-------|-------|-------|-------|
| Return                   | 2.5%  | 7.5% | 11.5% | 15.5% | 13.5% | 10.5% | 7.5%  | 5.5%  | 0.5%  | -4.5% |
| Fiscal Year<br>Beginning | 2020  | 2021 | 2022  | 2023  | 2024  | 2025  | 2026  | 2027  | 2028  | 2029  |
| Return                   | -0.5% | 3.5% | 6.5%  | 7.5%  | 11.5% | 15.5% | 19.5% | 15.5% | 11.0% | 6.7%  |

In reviewing each of these projections, it is the future trends, not necessarily the actual values that are important to consider in your deliberation of the risks of the System and the potential volatility of future funding ratios and City contribution levels.

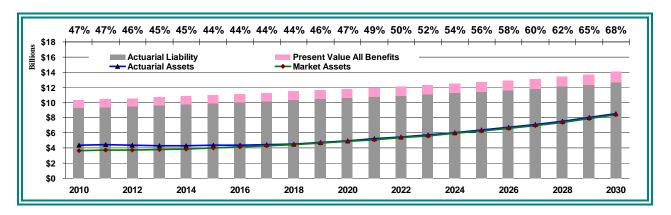

#### SECTION I BOARD SUMMARY

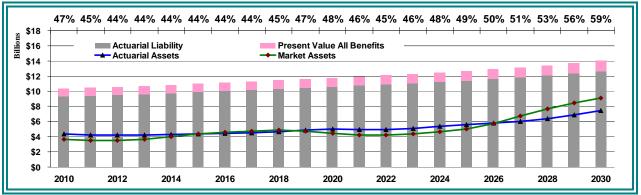

#### **Projection Set 1: Assets and Liabilities**

The two charts below show asset measures (green and blue lines) compared to liabilities (grey and pink bars). At the top of each chart is the progression of the System's funding ratio which compares the actuarial value of assets (green lines) to the actuarial liability (grey bars). The projections demonstrate a number of issues. Funding at the MMO level will result in a very slow improvement of funding after the full impact of the 2008/2009 investment losses are fully realized. This is a reflection of the negative cash flow of the System where benefit payments and expenses exceed expected contributions. The alternative return expectations reveal insight from these two charts is how varying investment returns impact the System's funding ratio. In both projections you can see that we applied the 10 year asset smoothing method adopted by the Board. This has significant influence on the smoothing of assets against market value volatility.

Chart 1: Projection of Assets and Liabilities, 8.15% return each year and City makes contributions based on MMO

<u>Chart 2: Projection of Assets and Liabilities, varying returns averaging 8.15% and City makes contributions based on MMO</u>

<sup>\*</sup> Market value of assets includes the PAF, which is not available for funding purposes.

Chart 2 demonstrates that if the fund can achieve a long-term return rate of 8.15%, the funding ratio can be adversely impacted by volatile returns year by year. This component of funding risk is driven by negative cash flows (where benefit payments and expenses are greater than

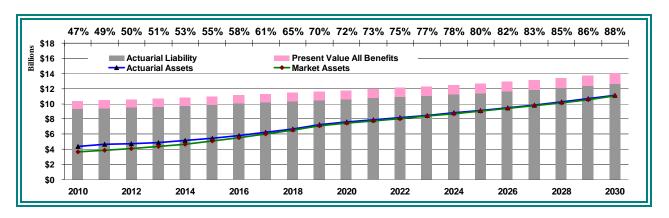

#### SECTION I BOARD SUMMARY

contributions). When a mature fund pays out more than it receives in a year when returns are below the assumption, the assets that get paid out are no longer in the fund during subsequent years of market recovery.

It is also important to consider the fact that as long as the System is significantly underfunded, the financial burden on the City will remain relatively high and the only reason both of these projections show gradual improvement is because the contributions will be adjusted to cover any cost volatility.

Chart 3: Projection of Assets and Liabilities, 8.15% return each year, and the City makes contributions based on the City's Funding Policy

In the above scenario where the City's Funding Policy is contributed every year, the System reaches a funded ratio of 93% at the end of the projection period (similar to the projections on the prior page in Chart 1). Also, for the entire period the funding ratio is higher than the ratio achieved each year if the MMO contributions are made, because of the higher assumed contributions.

Chart 4: Projection of Assets and Liabilities, if the City makes contributions based on the Funding Policy, varying returns averaging 8.15%

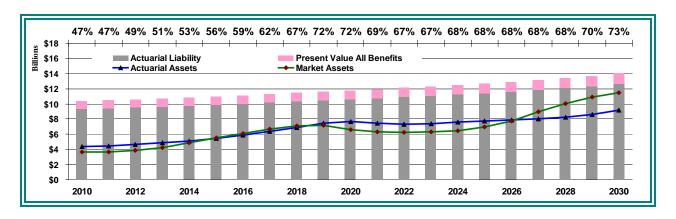

Chart 4 demonstrates that even if the return is achieved on average, because of negative cash flows the funded ratio could be materially less than long-term expectations might imply.

#### SECTION I BOARD SUMMARY

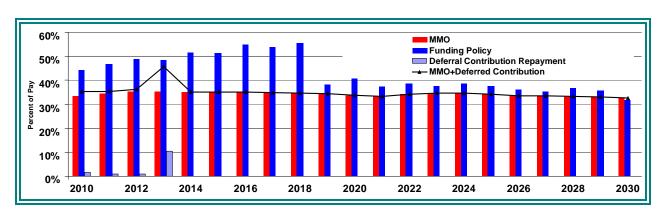

#### **Projection Set 2: Projected City Contribution Rate**

The chart below shows that the City's composite contribution rate under the MMO which increases slowly until 2017 after which the MMO decreases slightly until 2026 when the initial unfunded is paid off and the contribution rate drops to less than 30% of payroll. The unfunded actuarial liability is not paid off during this projection period; thus the projected contributions never revert to the normal cost rate. The decrease in 2019 for the City's Funding Policy rate is due to the payment in full of the initial unfunded liability. This projection assumes all actuarial assumptions are met, including the 8.15% anticipated investment return assumption, and the MMO contributions are made each year.

60% ммо Funding Policy 50% Deferral Contribution Repayment - MMO+Deferred Contribution 40% 30% 20% 10% 0% 2010 2012 2014 2016 2018 2020 2022 2024 2026 2028 2030

Chart 5: Projection of City Contributions, 8.15% return each year

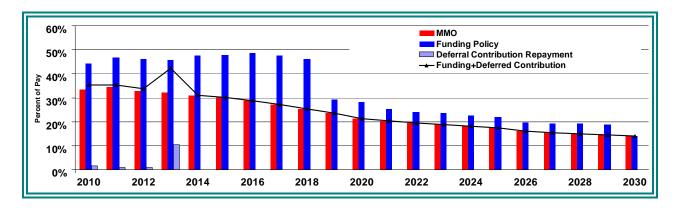

As shown above, varying returns have an impact on the computed City contribution rate, especially in the later projection years. However the volatility is mitigated for two reasons, the 10 year smoothing of assets and 20 year amortization of experience gains and losses. This illustrates that the future contributions should be anticipated to be higher to adjust for the market volatility. Thus, the market volatility can prolong the period of paying down the unfunded when coupled with the impact of negative cash flows in down markets.

#### SECTION I BOARD SUMMARY

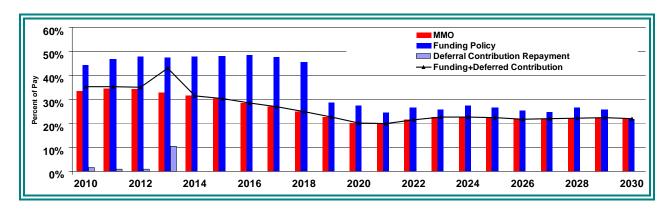

# <u>Chart 7: Projection of City Contributions, 8.15% return each year, and the City makes contributions based on the City's Funding Policy</u>

This chart shows the expected future contribution if the City's Funding Policy contributions are made each year. Since larger contributions are assumed to be made each year up front, projected contributions are expected to steadily decline when compared to Chart 5.

<u>Chart 8: Projection of City Contributions, varying returns averaging 8.15% and the City</u> makes contributions based on the City's Funding Policy

Chart 8 is similar to Chart 7 illustrating again the smoothing expectation on a City Funding Policy level when the annual return rates vary from year to year.

We note that when the System becomes 70% funded or greater, the unfunded liability may be amortized on a rolling 10 year basis. We have not shown the implications of this alternative funding method provided for in Act 205 because of the length of the projected period it will take before the System reaches this level of funding.

#### SECTION II ASSETS

The Retirement System uses and discloses two different asset measurements which are presented in this Section of the report: market value and actuarial value of assets. The market value represents the value of the assets if they were liquidated on the valuation date and, unless explicitly stated otherwise, this value includes the Pension Adjustment Fund (PAF) which is not available for funding purposes. The actuarial value of assets is a value that smoothes annual investment returns over ten years to reduce annual investment volatility and is used in determining contribution levels. By definition, the actuarial value of assets does not include the PAF.

On the following pages we present detailed information on System assets:

- Disclosure of assets at July 1, 2009 and July 1, 2010,
- Statement of cash flows during the year,
- Development of the actuarial value of assets,
- Apportionment of assets between plans for valuation purposes,
- Development of the Pension Adjustment Fund as of July 1, 2010, and
- Disclosure of investment performance for the year.

#### SECTION II ASSETS

#### A. Disclosure

The market value of assets represents a "snap-shot" value as of the last day of the fiscal year that provides the principal basis for measuring financial performance from one year to the next. Market values, however, can fluctuate widely with corresponding swings in the value of the investments. Because these fluctuations would cause volatility in employer contributions, an actuarial value of assets is developed. Table II-1 below discloses the market value by asset class as of July 1, 2009 and July 1, 2010. Table II-2 discloses the System's net cash flows for the plan year beginning July 1, 2009 and ending June 30, 2010. Table II-3 discloses Fiscal 2010 City contributions.

| Table II-1                                       |    |               |    |               |  |  |  |  |  |  |

#### SECTION II ASSETS

#### C. Actuarial Value of Assets

To determine on-going funding requirements, most pension funds utilize an actuarial value of assets that differs from the market value of assets. The actuarial value of assets represents an asset value based on averaging or smoothing year-to-year market value returns for purposes of reducing contribution volatility. Beginning with investment losses as of Fiscal Year End 2009, gains and losses are prospectively amortized over a ten-year period.

| Table II-4                               |                                               |                                             |                    |                 |    |                 |  |  |  |  |  |

#### SECTION II ASSETS

### E. Development of the Pension Adjustment Fund as of July 1, 2010

The table below provides the funds available for distribution consideration under title §22-311 of the Philadelphia Code. In general, the Pension Adjustment Fund (PAF) provides for enhanced benefit distributions to retirees and beneficiaries through the use of excess earnings. This may include a lump-sum bonus payment, monthly pension increases, ad-hoc cost of living adjustments, or some other increase determined by the Board. The adjusted market value of assets reflects a five-year smoothing of asset gains and losses, as described in the Philadelphia Code.

<sup>\*\*\*</sup> Asset return based upon the Adjusted Market Value of Assets using a 5-year smoothing of the gains/losses as outlined in Title 22-311

#### SECTION II ASSETS

#### F. Investment Performance

The market value of assets internal rate of return was 13.8% for the year ending June 30, 2010. This is compared to an assumed return of 8.25%. The return for the year ending June 30, 2009 was -19.9%.

On an actuarial value of assets basis (net of PAF), the return for FYE 2010 was 12.9%. This return produced an overall investment gain of \$200.5 million for the year ending June 30, 2010, even after reflecting the corridor. Last year the actuarial value basis returned -9.3%.

#### SECTION II ASSETS

### G. Asset Gain/(Loss)

There was a \$200.5 million investment gain on market value of assets when compared to the expected as of July 1, 2010. Table II-8 reconciles the 2010 asset loss (expected versus actual) for the market value of assets both net of the PAF and in total. This investment loss is smoothed over a ten-year period to determine the actuarial value of assets (see Table II – 4). Also provided below is a reconciliation of the PAF. There was no PAF transfer amount as of July 1, 2010.

<sup>&</sup>lt;sup>1</sup> This is the amount of distributions made out of the Pensions Adjustment Fund during the Plan Year

<sup>&</sup>lt;sup>2</sup> The PAF is credited with investment income at the market rate of return earned by plan assets

#### SECTION III LIABILITIES

In this section, we present detailed information on liabilities for the City of Philadelphia Municipal Retirement System, including:

- Disclosure of liabilities at July 1, 2009 and July 1, 2010,
- Statement of changes in these liabilities and the unfunded liabilities during the year,
- Development of the normal cost rates by plan, and
- The reconciliation of the changes in the unfunded liability by plan as well as the expected unfunded liability as of July 1, 2011.

#### **Disclosure**

Two types of liabilities are calculated and presented in this report. Each type is distinguished by the purpose for which the figures are ultimately used.

- **Present Value of all Future Benefits:** Used for measuring all future obligations, this represents the amount of money needed today to fully pay off all benefits both earned as of the valuation date and those to be earned in the future by current Plan participants, under the current Plan provisions and assumptions.
- Actuarial Liability: Used for determining employer contributions and GASB accounting disclosures. This liability is calculated by subtracting the present value of future member contributions and future employer normal cost contributions as determined under the Entry Age Normal Cost (EAN) actuarial funding method from the present value of all future benefits.

#### SECTION III LIABILITIES

Table III-1 shows the present value of future benefits, actuarial liability, and unfunded actuarial liability as of July 1, 2010, and July 1, 2009, for the Retirement System.

#### SECTION III LIABILITIES

Table III-4 shows changes in the unfunded actuarial liability from July 1, 2009 to July 1, 2010 due to actuarial experience and the interest rate assumption change; there were no plan changes. It also shows the development of the expected unfunded actuarial liability from July 1, 2010 to July 1, 2011 based upon the City's Funding Policy, which is used to develop the end of year amortization amounts for the City's Funding Policy in Table IV – 10 and in Appendix D. The actuarial experience of each of the plans is calculated based on the plans' actual asset and liability values compared to the expected values.

| Expect                                                              | Table III-4 Expected Unfunded Actuarial Liability for the Plan Year Ending June 30, 2011 (\$ thousands) |           |    |           |    |          |    |                  |    |          |     |          |    |          |                 |

<sup>\*</sup> Expected UAL is based upon the City's funding policy Note: Numbers may not add due to rounding.

# SECTION IV CONTRIBUTIONS AND MINIMUM MUNICIPAL OBLIGATION

In the process of evaluating the financial condition of any pension plan, the actuary analyzes the assets and liabilities to determine what level (if any) of contribution is needed based upon the funding methods either required by law or adopted by the plan sponsor. For an actuarial funding method to be effective it should result in a pattern of contributions that is both stable, predictable and systematically fund the plan obligations.

The actuarial funding method used to determine the normal cost and the unfunded actuarial liability is the Entry Age Normal (EAN) cost method. The normal cost is based upon the normal cost rate determined by taking the value, as of entry age into the plan, of each member's projected future benefits. This value is then divided by the value, also at entry age, of each member's expected future salary producing a normal cost rate that should remain relatively constant over a participant's career. The normal cost rate is multiplied by current salary to determine each member's normal cost. Finally, the normal cost is reduced by the member contribution to produce the employer normal cost. The unfunded actuarial liability is the difference between the EAN actuarial liability and the actuarial value of assets.

Within this section of the report, two contribution amounts are determined based upon two different sets of rules for determining the way the unfunded actuarial liability is funded.

The first method is defined in accordance with Act 205 and defines the Minimum Municipal Obligation (MMO), which is the City's minimum required contribution under Pennsylvania state law. The second method is in accordance with the City's Funding Policy which predates the Act 205 rules and calls for contributions that are greater than the MMO until the initial unfunded liability determined in 1984 is fully funded. Under both funding methods there are two components: the normal cost and the amortized unfunded actuarial liability. The amortized unfunded actuarial liability is the amount of the unfunded actuarial liability that is paid each year based upon the amortization periods. The amortization periods are different under the MMO and the City's Funding Policy, which is outlined in more detail in Appendix B, Section B.

Due to the contributions deferral in FYE 2010, there is an additional part to the MMO to include interest on the deferred contribution. This interest payment can be deferred as well and become part of the following year's MMO as we understand the provisions of Section 10 of Act 205. For FYE 2011, this report reflects two years of interest for the \$150 million deferral for FYE 2010. If additional contributions are deferred in FYE 2011, then additional interest will need to be reflected for this year.

As of July 1, 2010, gains and losses are recognized annually to determine the amortization base used to calculate the MMO, as opposed to biennially. This change is implemented due to section 1002 of Act 205.

In addition, the MMO excluding the Pension Obligation Bond (POB) is also provided in this section, as required for reporting purposes under ACT 205.

# SECTION IV CONTRIBUTIONS AND MINIMUM MUNICIPAL OBLIGATION

In Table IV-1 we provide the employee contribution rates as a percent of pay effective for the plan year starting July 1, 2011. Table IV-2 shows the quasi-agency funding rates as a percent of payroll.

| Table IV-1<br>Employee Contribution Rates |                        |         |        |       |  |  |  |  |  |  |  |  |

## SECTION IV CONTRIBUTIONS AND MINIMUM MUNICIPAL OBLIGATION

The tables on the following pages support Exhibit I of the Act 205 filings.

- Table IV-6 is a summary of assets, liabilities, and amortization contributions under the assumption that the Pension Obligation Bond (POB) was never contributed.
- Table IV-7 is a schedule of modified amortization payments under the assumption that the proceeds from the POB were never contributed.
- Table IV-8a, IV-8b, and IV-8c are debt service schedules for the POB, allocated for the Municipal, Police, and Fire divisions.
- Tables IV-9a and IV-9b are statements of receipts and disbursements for each division excluding and including bond issue assets, respectively, excluding the PAF.

## SECTION IV CONTRIBUTIONS AND MINIMUM MUNICIPAL OBLIGATION

The Table IV -10 and Table IV -11 provide information on the City's Funding Policy for FYE 2011 and FYE 2012. The differences between the MMO and the City's Funding Policy are:

- The City's Funding Policy amortizes the initial July 1, 1985 unfunded actuarial liability over 34 years, whereas the MMO is determined based on a 40-year amortization schedule.
- A July 2004 amendment to Act 205 allowed for 2001 and 2002 calendar year investment losses to be amortized over 30 years for the MMO, rather than the usual 15 years which is used for the City's Funding Policy.
- The normal cost portion of the City's Funding Policy payment is based on actual fiscal year payroll, whereas the MMO is based on the prior year's estimated payroll for that year.
- Interest does not accumulate on the MMO, as long as the payment is made by the end of the fiscal year.
- Both the City's Funding Policy and the MMO utilize valuation results developed in the previous year (e.g., the July 1, 2010 valuation report will determine FYE 2011 contribution amounts). However, no interest is added to the MMO for this delay.
- The MMO reflects amortization of prior years' City contributions above past MMOs as actuarial gains.

Starting with FYE 2007-2008, the MMO recognized actuarial gains and losses every other year, in order to coincide with the filing of the Act 205 forms. Beginning for FYE 2012, gains and losses are recognized annually. The City's Funding Policy recognizes actuarial gains and losses on an annual basis.

Table IV – 10 develops the amortized amounts for the current year under the City's Funding Policy. For additional details on the amortized amounts by plan, refer to Appendix B. Table IV – 11 provides the estimated FYE 2012 and updated FYE 2011 contribution amount under the City's Funding Policy. The estimated FYE 2012 contribution will be updated in next year's actuarial valuation report based upon the July 1, 2011 payroll.

Assuming beginning-of-year payment. FYE 2011 payroll for the City's Funding Policy is the final payroll for the year. All other payroll is estimated based upon the prior year's data used for the actuarial valuation.

#### SECTION V ACCOUNTING STATEMENT INFORMATION

The Governmental Accounting Standards Board's Statement No. 25 (GASB 25) is effective for plan years beginning after June 15, 1996, and supersedes Statement No. 5. GASB No. 25 establishes standards for disclosure of pension information by public employee retirement systems and governmental employers in notes to financial statements and supplementary information. The disclosure presents the actuarial liability computed for funding purposes to the actuarial value of assets to determine a funding ratio (i.e., the EAN liability). The actuarial liability is determined assuming that participants continue to terminate employment, retire, etc., in accordance with the actuarial assumptions. Liabilities are discounted at the assumed valuation interest rate of 8.75% per annum for Fiscal Year 2010. For Fiscal Year 2011, the assumed interest rate will change to 8.25% based upon July 1, 2009 liabilities valued at this interest rate. For Fiscal Year 2012 the assumed interest rate will change to 8.15% based upon July 1, 2010 liabilities valued at this interest rate. GASB Statement No. 25 requires the actuarial liability be compared with the actuarial value of assets for funding purposes. The relevant amounts as of July 1, 2009 and July 1, 2010 are presented in Table V-1 and Table V-2.

GASB 25 also requires for the disclosure of two financial statements and two schedules of historical information:

- Statement of Plan Net Assets includes information about System assets and liabilities at the valuation date. This statement can be found at the beginning of the Assets section of this report, in Table II-1. The City's deferred contributions are included in these amounts based on the requirement set out in Section 10 of Act 205.
- Statement of Changes in Plan Net Assets shows receipts and disbursements from the Fund for the most recent plan year. This statement can also be found in the Assets section of this report, in Table II-2. The City's deferred contributions are included in these amounts based on the requirement set out in Section 10 of Act 205.
- Schedule of Funding Progress discloses historical information about the funded status of the plan. This schedule can be found in Table V-3.
- Schedule of Employer Contributions discloses historical information about the Annual Required Contribution (ARC) and the actual contributions made by the employer. This schedule can be found in Table V-4. These contributions do not include the deferred contribution of \$150 million.

GASB Statement No. 27 requires that financial statements must include additional disclosures for pension expenditures/expenses. It is effective for the period beginning after June 15, 1997. Table V-5 summarizes the results of this valuation according to our interpretation of GASB 27. The interpretation of the statements is subject to your auditor's review. The required disclosures are:

 Annual Required Contribution (ARC) – this is the expected contribution required based on statement-specific valuation methods and assumptions, with the unfunded liability amortized

#### SECTION V ACCOUNTING STATEMENT INFORMATION

over an initial period not to exceed 40 years and thereafter 30 years, either as a level-dollar amount or as a level percentage of pay, and with amortization of contributions less than or in excess of the required amount. Historically, the ARC has been shown as the contribution required under the City's Funding Policy.

- Equivalent Single Amortization Period this is the number of years incorporated in a weighted average amortization factor for all amortization components combined. The weighted average amortization factor is equal to the total unfunded actuarial liability divided by the sum of the amortization provisions for each of the separately amortized components. This weighted average produces 12.3 years where the amortized components are based upon the Funding policy.
- Net Pension Obligation (NPO) the accumulated value of contribution deficiencies (or excesses) over required contributions from July 1, 1987 to July 1, 2010 between the annual pension cost and the employer's contribution.
- Annual Pension Cost is equal to the ARC plus one year's interest on NPO and ARC adjustment.

## APPENDIX A MEMBERSHIP INFORMATION

The data for this valuation was provided by the Board of Pensions as of July 1, 2010. Cheiron did not audit any of the data; however, it was reviewed to ensure that it complies with generally accepted actuarial standards. The following is a list of data charts contained in this section:

- A-1: Active Member Data by Plan
- A-2: Non-Active Member Data, Counts, by Plan
- A-3: Non-Active Member Data, Total Annual Benefits, by Plan
- A-4: Non-Active Member Data, Average Annual Benefits, by Plan
- A-5 through A-20: Age/Service Distribution for Active Participants, Counts and Average Salary for all Plans
- A-21: Reconciliation of Plan Membership
- A-22 through A-26: Age and Benefit Distributions for Non-Active Member Data

# APPENDIX C SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

## **Data Assumptions and Practices**

In preparing our data, we relied, without audit, on information supplied by the City of Philadelphia Municipal Retirement System staff. This information includes, but is not limited to, plan provisions, employee data, and financial information. Our methodology for obtaining the data used for the valuation is based upon the following assumptions and practices:

- We exclude raw active records with dates of hire after the valuation date.
- We include terminated vested records in the valuation data, regardless of whether they have enough service for vesting.
- We delete terminated vested and retired records with values of zero in the benefit field.
- If a participant is found in multiple data files (e.g., both the active and retired data files), based on a match of both employee number and Social Security Number, we first attempt to identify the record with the most recent status change, and keep only that record. If it is not apparent which record is the most recent, we keep the record that generates the highest liability in our valuation system.
- If a participant is found multiple times in the same data file, based on a match of both employee number and Social Security Number, we keep the record that generates the highest liability in our valuation system.
- Valuation pay reflects a load of 4% of pay for police (stress pay) and firefighters (premium pay).
- The date of retirement for a terminated vested participant was set to the valuation date, if the given date was earlier.
- If the payment form field for pensioners is missing, we assume that 1967 Plan members receive a 50% J&S annuity with a return of contributions in excess of payments received upon death of the member, and we assume that Plan 87 members receive a life annuity, also with a return of contributions. However, if the pensioner is a beneficiary or survivor, we assume that they receive a life annuity only.
- For pensioners under the form of payment 50% J&S annuity with return of contributions, 60% are assumed to be married based upon data provided by the City. All other forms of payments are explicitly valued.
- Records with missing dates of birth have their data filled in based on the average for their plan.

- HEIRON

## APPENDIX C SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

- We assumed that all changes in participant data from last year to this year were valid unless indicated otherwise by System staff.
- DROP participants are assumed to begin payments immediately.
- Service-connected disability benefits are increased by 2.9%.
- For Municipal Plan 1967 participants, pay was assumed to be below the Social Security Taxable Wage Base for purposes of determining the aggregate member contribution amount.
- We assumed that any participant who was active last year, missing this year, and fully vested became terminated vested with total credited service equal to credited service from last year plus one and final pay equal to pay from last year increased by the salary scale assumption.
- We assumed that any participant who was active last year, missing this year, and not fully vested became a terminated non-vested participant.
- We assumed that any participant who was inactive last year and missing from this year without a clear reason is now deceased.

# APPENDIX C SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

## **A.** Actuarial Assumptions

## 1. Investment Return Assumption

8.15% compounded annually, net of expenses.

## 2. Salary Increase Rate

|       | All Divisions |
|-------|---------------|
| Age   |               |
| <20   | 21.00%        |
| 20-24 | 12.50%        |
| 25-29 | 7.75%         |
| 30-34 | 5.50%         |
| 35-39 | 4.75%         |
| 40-44 | 4.50%         |
| 45-49 | 3.75%         |
| 50-54 | 3.75%         |
| 55-59 | 3.75%         |
| 60-64 | 3.75%         |
| 65+   | 3.75%         |

## 3. Total Annual Payroll Growth

3.5% per year.

## 4. Administrative Expenses

Annual expected expenses included in this report are \$8,000,000, increasing by 3.5% per year.

# APPENDIX C SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

## 5. Rates of Termination

|     |          | 1967 Plan | Plan 87   |                                    |           |

| 30  | 0.072000 | 0.071562  | 0.029900  | 0.105000                           | 0.029900  |
| 35  | 0.045000 | 0.056170  | 0.025200  | 0.090000                           | 0.025200  |
| 40  | 0.035000 | 0.039379  | 0.015400  | 0.090000                           | 0.015400  |
| 45  | 0.030000 | 0.035597  | 0.010000  | 0.075000                           | 0.010000  |
| 50  | 0.020000 | 0.022400  | 0.001600  | 0.065000                           | 0.001600  |
| 55  | 0.000000 | 0.000000  | 0.001600  | 0.050000                           | 0.001600  |

We assume that a vested employee who terminates will elect a pension deferred to service retirement age as long as their age plus years of service at termination are greater than or equal to 55 (45 for police and fire employees in the 1967 Plan). Otherwise we assume they elect a refund of member contributions.

## 6. Rates of Disability

|     | Municipal and l | Elected Officials | Uniformed |

| 25  | 0.000070        | 0.000061          | 0.000870  |
| 30  | 0.000557        | 0.000263          | 0.001668  |
| 35  | 0.001514        | 0.000620          | 0.002918  |
| 40  | 0.001800        | 0.001314          | 0.003184  |
| 45  | 0.003840        | 0.002359          | 0.003334  |
| 50  | 0.007600        | 0.004285          | 0.002654  |
| 55  | 0.008680        | 0.007088          | 0.000000  |

For municipal and elected members, we assume that 70% of all disabilities are ordinary and 30% are service-connected. For police and fire members, we assume that 50% are ordinary and 50% are service-connected.

# APPENDIX C SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

# 7. Rates of Pre-Retirement Mortality (RP 2000 with 5 year set back for Municipal females, 3 year set forward for Police and Fire females, no adjustment for males)

|     | Municipal and l | Elected Officials | Unifo    | rmed     |
|-----|-----------------|-------------------|----------|----------|
| Age | Male            | Female            | Male     | Female   |
| 20  | 0.000345        | 0.000170          | 0.000345 | 0.000197 |
| 25  | 0.000376        | 0.000191          | 0.000376 | 0.000235 |
| 30  | 0.000444        | 0.000207          | 0.000444 | 0.000394 |
| 35  | 0.000773        | 0.000264          | 0.000773 | 0.000598 |
| 40  | 0.001079        | 0.000475          | 0.001079 | 0.000937 |
| 45  | 0.001508        | 0.000706          | 0.001508 | 0.001434 |
| 50  | 0.002138        | 0.001124          | 0.002138 | 0.002207 |
| 55  | 0.003624        | 0.001676          | 0.003624 | 0.003923 |
| 60  | 0.006747        | 0.002717          | 0.006747 | 0.007648 |
| 65  | 0.012737        | 0.005055          | 0.012737 | 0.013445 |

For municipal and elected members, we assume that 98.5% of all deaths are ordinary, with 1.5% service-connected. For police and fire members, 92% are assumed to be ordinary and 8% service-connected.

## 8. Rates of Post-Retirement Mortality

For Police and Fire, we assume that mortality for healthy inactive lives will follow RP 2000 with a 1 year set forward for males and a 2 year set forward for females. For Municipal and Elected officials, we assume that mortality for healthy inactive lives will follow RP 2000 with a 2 year set forward for both males and females.

#### 9. Rates of Post-Disability Mortality

For Police and Fire, we assume that mortality for disabled retirees follows RP 2000 Healthy mortality with a 30% upwards adjustment. For Municipal and Elected officials, we assume that mortality for disabled retirees follows RP 2000 Disabled mortality with a 5% downward adjustment.

# APPENDIX C SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

## **10. Family Composition Assumptions**

70% of active members and 60% of non-active members are assumed to be married for retirees with the 50% J&S with return on contribution form of payment only. Male spouses are assumed to be four years older than female spouses.

## 11. Changes Since Last Valuation

- The interest rate assumption decreased from 8.25% to 8.15%.
- The salary increase rate was changed from 5% per year to a new age based scale.
- The total payroll growth rate changed from 4.0% to 3.5% per year.
- Rates of termination for Uniformed Plan 67 were changed to better reflect experience.
- Rates of disability for Uniformed Plans were changed to better reflect experience.
- All rates of retirement except those for Municipal Plan 87 were changed to better reflect experience.
- Mortality rates for all plans, both pre and post-retirement, were changed from the 1994 GAM table to the RP-2000 based table.
- Post-Disabled mortality for all plans also was changed from 1994 GAM to RP-2000 table.

# APPENDIX C SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

### **B.** Actuarial Methods

## 1. Actuarial Funding Method

The Entry Age Normal actuarial funding method was used for active employees, whereby the normal cost is computed as the level annual percentage of pay required to fund the retirement benefits between each member's date of hire and assumed retirement. The actuarial liability is the difference between the present value of future benefits and the present value of future normal cost. The unfunded actuarial liability is the difference between the actuarial liability and the actuarial value of assets.

## 2. Funding Methods

## City's Funding Policy:

The initial July 1, 1985 UAL is amortized over 34 years ending June 30, 2019, with payments increasing at 4% per year, the assumed payroll growth. Other changes in the actuarial liability are amortized in level-dollar payments as follows:

- Actuarial gains and losses 20 years beginning July 1, 2009. Prior to July 1, 2009, gains and losses were amortized over 15 years
- Assumption changes 20 years
- Plan changes for active members 20 years
- Plan changes for inactive members 10 years

#### MMO:

For the purposes of the MMO under Act 205 reflecting the fresh start amortization schedule, the July 1, 2009 UAL was "fresh started" to be amortized over 30 years ending June 30, 2039. This is a level dollar amortization of the UAL. All future amortization periods will follow the City's Funding Policy as outlined above. The future MMO will include the interest payments of any deferred contribution amounts.

#### 3. Asset Valuation Method

The actuarial value of assets (AVA) is determined using an adjusted market value. Under this method, a preliminary AVA is determined as the market value of assets on the valuation date, minus the existing balance of the Pension Adjustment Fund (PAF) rolled forward at the current year's market rate of return, minus a decreasing fraction (4/5, 3/5, 2/5, 1/5) of the investment gain or loss in each of the preceding four years for gains and losses prior to July 1, 2009. Beginning July 1, 2009, investment gains and losses are recognized over a ten year period prospectively, creating the decreasing faction to be (9/10, 8/10, 7/10, etc). The gain or loss for a given year is the difference between the actual investment return (on a market-to-market basis) and the assumed investment return based on the market value of assets at the beginning of the year and actual cash flow. The AVA is adjusted, if necessary, to remain between 80% and 120% of the market value net of the PAF. The final AVA is determined by subtracting the additional transfer amount (if any) to the PAF. The additional transfer amount to the PAF remains to be calculated based on the five year method.

# APPENDIX C SUMMARY OF ACTUARIAL ASSUMPTIONS AND METHODS

4. Changes Since Last Valuation

None.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1967 PLAN

This summary of plan provisions provides an overview of the major provisions of the pension plans used in the actuarial valuation. It is not intended to replace the more precise language of the retirement code, and if there is any difference between the description of the plans herein and the actual text of the retirement code, the retirement code will govern.

## 1. Participation

Municipal (Plan J):

Full-time employees participate on their date of employment. Temporary employees participate after completing six months employment. Participation is limited to employees hired before January 8, 1987. District Council 47 (Local 2186 or 2187) and 33 members hired between January 8, 1987 and October 1, 1992 were switched from Plan 87 to 1967 Plan effective on their hire dates, provided such employees contributed the difference between what they paid to the Plan and the amount they would have paid under Plan J.

*Uniformed (Plans D and X):* Same as municipal.

#### 2. Credited Service

*Municipal (Plan J):* 

Credited service means the period of employment with the City during which the employee makes contributions to the Retirement System. Certain leaves of absence may also be credited.

*Uniformed (Plans D and X):* Same as municipal.

#### 3. Total Compensation

*Municipal (Plan J):* 

Total compensation means the base rate of pay, longevity payments, and overtime received during a 12-month period.

*Uniformed (Plans D and X):* 

Total compensation means the base rate of pay, longevity payments, and stress or premium pay (up to 4% of base pay) received during a 12-month period.

#### 4. Final Compensation

*Municipal (Plan J):* 

Final compensation means whichever is greater: annual base rate of pay at the time of termination or the total compensation received during the 12 months immediately preceding

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1967 PLAN

termination, including supplementary compensation received under Civil Service Regulation No. 32.

*Uniformed (Plans D and X):* Same as municipal.

## 5. Average Final Compensation

*Municipal (Plan J):* 

Average final compensation means the arithmetic average of the total compensation received during the three calendar or anniversary years that produce the highest average.

*Uniformed (Plans D and X):* 

Average final compensation means the highest of:

- The total compensation received during the 12-month period; or
- The annual base rate of pay, excluding longevity payments, calculated from the final pay period; or
- The arithmetic average of the total compensation received during five calendar years of employment.

#### 6. Employee Contributions

*Municipal (Plan J):* 

Each employee who participates in the Social Security System contributes 3 3/4% of total compensation up to the taxable wage base (\$106,800 in 2009 and 2010) and 6% of total compensation above the taxable wage base to the Retirement System.

Each employee who does not participate in the Social Security System contributes 6% of his total compensation to the Retirement System.

*Uniformed (Plans D and X):* 6% of total compensation to the Retirement System.

#### 7. Service Retirement

#### Eligibility

Municipal (Plan J):

Each municipal employee is eligible to retire and receive a service pension at age 55 with one year of service.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1967 PLAN

*Uniformed (Plans D and X):* 

Each uniformed employee is eligible to retire and receive a service pension at age 45.

## **Benefit Amount**

Municipal (Plan J):

The service pension equals 2 1/2% of the employee's average final compensation multiplied by credited service to a maximum of 20 years plus 2% of the employee's average final compensation multiplied by credited service above 20, to a maximum of 80% of the employee's average final compensation.

*Uniformed (Plans D and X):* 

The service pension equals 2 1/2% of the employee's average final compensation multiplied by credited service, subject to a maximum of 100% of average final compensation.

## 8. Early Retirement

## **Eligibility**

Municipal (Plan J):

Each municipal employee is eligible to retire and receive a reduced service pension at age 52 if he has 10 or more years of credited service.

*Uniformed (Plans D and X):* 

Each uniformed employee is eligible to retire and receive a reduced service pension at age 40 if he or she has 10 or more years of credited service.

## **Benefit Amount**

Municipal (Plan J):

The annual amount is calculated the same as service retirement, reduced by 1/2 of 1% for each month the employee is younger than minimum retirement age.

*Uniformed (Plans D and X):* 

Same as municipal.

#### 9. Deferred Vested Retirement

### **Eligibility**

*Municipal (Plan J):* 

A terminating employee who has completed 10 or more years of credited service is eligible for a deferred vested retirement benefit.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1967 PLAN

*Uniformed (Plans D and X):* Same as municipal.

## **Benefit Amount**

Municipal (Plan J):

The annual deferred vested benefit is determined the same as service pensions, using average final compensation and credited service at termination. This benefit begins at service retirement date. If the member dies before the deferred vested benefit begins, an ordinary death benefit is payable (see Ordinary Death below). As an alternative before benefits begin, a plan member who is terminating employment may ask to have employee contributions returned (without interest) instead of receiving the deferred vested benefit.

*Uniformed (Plans D and X):* Same as municipal.

#### 10. Withdrawal Benefit

Municipal (Plan J):

Each employee terminating who has completed less than 10 years of credited service will receive a withdrawal benefit equal to his or her employee contributions (without interest).

*Uniformed (Plans D and X):* Same as municipal.

#### 11. Service-Connected Death

## **Eligibility**

Municipal (Plan J):

The beneficiary of each active employee who dies solely from the performance of duties of the employee's position with the City is eligible for an immediate death benefit.

*Uniformed (Plans D and X):* Same as municipal.

## **Benefit Amount**

*Municipal (Plan J):* 

The death benefit equals total employee contributions paid to the Retirement System, plus a yearly payment of 60% of the employee's final compensation reduced by any death benefits payable under the Worker's Compensation Act.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1967 PLAN

This benefit is payable to the spouse until his or her death. Dependent children are entitled to an additional yearly payment of 10% of final compensation for each dependent child (up to two children) until the child reaches age 18. If there is no spouse, or if the spouse dies or remarries, each dependent child (up to three children) is entitled to receive a yearly payment of 25% of final compensation until the child reaches age 18.

If there are no spouse or dependent children, each dependent parent is entitled to receive a yearly payment of 15% of final compensation for life.

*Uniformed (Plans D and X):* Same as municipal.

## 12. Ordinary Death

#### **Eligibility**

Municipal (Plan J):

The beneficiary of an active employee (or a terminated vested employee who did not withdraw employee contributions) who dies after completing 10 years of credited service or reaches age 55 is eligible for an immediate death benefit equal to a yearly pension or a lump sum payment. The beneficiary of an active employee who dies before completing 10 years of credited service and reaches age 55 is eligible for a lump sum payment.

The beneficiary may be any relative by blood or marriage.

*Uniformed (Plans D and X):* 

The beneficiary of any employee who dies while actively employed (or a terminated vested employee who did not withdraw employee contributions) is eligible for a death benefit equal to a yearly pension or a lump sum payment.

The beneficiary may be any relative by blood or marriage.

### **Annual Pension**

Municipal (Plan J):

The annual ordinary death pension, payable for life, is equal to the regular service pension the employee would have received if eligible to retire on the day before he died and had elected Option 2, joint and 100% contingent annuitant (see Survivor Benefits below).

*Uniformed (Plans D and X):* 

The annual ordinary death pension, payable for life, is equal to the regular service pension the employee would have received (based on a minimum of 10 years of service) had the person been eligible to retire on the day before dying and had elected Option 2, joint and 100% contingent annuitant (see Survivor Benefits below).

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1967 PLAN

## **Lump Sum Payment**

*Municipal (Plan J):* 

The lump sum payment is equal to 10% of the deceased employee's average final compensation multiplied by years of credited service to a maximum of 10, plus the deceased employee's contributions to the Retirement System, minus the total amount of the deceased employee's City-paid life insurance.

*Uniformed (Plans D and X):* Same as municipal.

## 13. Service-Connected Disability

## **Eligibility**

Municipal (Plan J):

An active employee found by the Board of Pensions and Retirement to be mentally or physically permanently incapacitated (unable to perform duties) solely as the result of accident or injury during the performance of duties is eligible for an immediate service-connected disability pension.

*Uniformed (Plans D and X):* Same as municipal.

#### **Benefit Amount**

*Municipal (Plan J):* 

The service-connected disability benefit is equal to the employee's Retirement System contributions, plus a yearly benefit of 70% of the employee's final compensation, reduced by any disability benefits payable under the Worker's Compensation Act. If he or she withdraws contributions, the benefit is payable for his or her lifetime only.

If the employee leaves employee contributions with the Retirement System, he or she may choose a survivor benefit option (see Survivor Benefit below) and the beneficiary will continue receiving benefit payments after his or her death.

*Uniformed (Plans D and X):* Same as municipal.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1967 PLAN

## 14. Service-Connected Disability Periodic Adjustment

## **Eligibility**

Municipal (Plan J):

An employee who is receiving a service-connected disability benefit who is totally disabled and does not collect Social Security disability insurance benefits is eligible for a periodic adjustment.

*Uniformed (Plans D and X):* 

Same as municipal, but only applies to police employees.

## **Benefit Amount**

*Municipal (Plan J):* 

The disabled employee's pension will be increased in the eighth year after separation by the percentage raise given in the previous year to active employees in his or her job class. The adjustment will continue each year thereafter until the employee's 65th birthday.

*Uniformed (Plans D and X):* Same as municipal.

## 15. Ordinary Disability

#### Eligibility

Municipal (Plan J):

An active employee found by the Board to be mentally or physically permanently incapacitated from the further performance of duties due to an accident or illness not caused by the performance of duties is eligible for an immediate ordinary disability benefit after completing 10 years of credited service.

*Uniformed (Plans D and X):* 

Same as municipal, except that fire employees only need five years of credited service and police employees have no service requirement if the disability is permanent and total. Police employees with permanent and partial disability need 10 years of credited service.

## **Benefit Amount**

Municipal (Plan J):

The annual ordinary disability benefit is equal to the benefit determined under the service pension formula using average final compensation and credited service as of the date of disablement. If the employee is eligible for, or receiving workers' compensation, no benefit is payable. Such employee may apply for benefits at retirement age.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1967 PLAN

*Uniformed (Plans D and X):* 

Same as municipal, except police employees that have no service requirement are credited with a minimum of 10 years of credited service. Same as municipal.

#### 16. Survivor Benefit

*Municipal (Plan J):* 

Service pensions, deferred vested benefits, service-connected disability benefits (if employee contributions are left on deposit), and ordinary disability benefits are payable under four optional forms. Options 1, 2, and 3 provide benefits actuarially equivalent to a lifetime only pension while Option 4 has no reduction.

Option 1 - A benefit is payable to the employee with the provision that upon death, the beneficiary will receive a lump sum equal to the excess, if any, of the employee's contributions over the sum of the payments received.

Option 2 - A reduced benefit payable to the employee with the provision that 100% of the reduced benefit will be paid to the designated beneficiary for life after the death of the employee.

Option 3 – Same as Option 2 except only 50% of the reduced benefit is continued to the designated beneficiary.

Option 4 – Upon the employee's death, 50% of the benefit will continue to be paid to the surviving spouse for life, provided the employee and spouse were married for two years before retirement and at death. If there is no eligible spouse at the time the employee dies, or the spouse dies before the full amount of the contributions have been returned, 50% of the benefit is continued to dependent children until age 18, or if no dependent children, payments are given to dependent parents for the remainder of their lives. In addition, Option 4 provides for a guaranteed return of employee contributions as described in Option 1 above.

*Uniformed (Plans D and X):* Same as municipal.

#### 17. Minimum Pension

*Municipal (Plan J):* 

The monthly minimum pension to a pensioner is equal to \$25 multiplied by the number of the pensioner's completed years of credited service, to a 10 year maximum.

*Uniformed (Plans D and X):* 

The monthly minimum pension to pensioners is \$500. The monthly minimum pension to all other pensioners is \$440 providing such pension will increase to \$500 at the time the pensioner reaches age 60.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1967 PLAN

#### 18. Waiver of Benefit

*Municipal (Plan J):* 

Any employee at service retirement age with less than three but more than one year of credited service, may waive the right to receive a monthly benefit and in lieu thereof, receive a lump sum payment of twice his or her employee contributions without interest.

*Uniformed (Plans D and X):* Same as municipal.

#### 19. Service-Connected Health Care Benefit

Municipal (Plan J):
Not applicable.

*Uniformed (Plans D and X):* 

If a uniformed employee dies during the performance of duties, a service-connected health care benefit may be payable to the surviving spouse and dependent children. Regular payments will be made of the appropriate cost of maintaining medical, dental, optical, and prescription drug benefits that were in force at the time of the employee's death. Payments to the spouse cease upon remarriage and to dependent children at age 18 (age 22 if full-time student) or, if dependent due to physical or mental infirmity, the duration of the infirmity. The health care benefits are not paid from the pension trust assets.

## 20. Deferred Retirement Option Plan (DROP)

Municipal (Plan J):

Employees that have ten years of service and reached the minimum retirement age may elect to participate in the DROP. During this time, their accrued benefit will go into a DROP account and will earn interest at a specified rate (4.5% as of July 1, 2007). The benefit is calculated as of the date they entered the DROP. At the end of the DROP, the employees' accrued monthly benefit will commence, plus they will receive the accumulated amount of the accrued benefit paid to the DROP, as well as the interest earned on such benefit.

*Uniformed (Plans D and X):* Same as municipal.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

## 1. Participation

## Municipal:

Full-time employees participate on their date of employment. Temporary employees participate after completing six months of employment. Participation is limited to employees hired on or after January 8, 1987. Any member of the 1967 Plan may irrevocably elect to participate in Plan 87.

## *Uniformed (Plans A and B):*

Same as municipal except for Police employees hired after January 1, 2010 must make an election to participate in Plan B.

#### *Elected:*

Any City employee on or after January 8, 1987, in any general, municipal, or special election, participates in this Plan.

#### 2. Credited Service

#### Municipal:

Credited service means the period of employment with the City during which the employee makes contributions to the Retirement System. Certain leaves of absence may also be credited.

*Uniformed (Plans A and B):* 

Same as municipal.

#### Elected:

Same as municipal.

#### 3. Total Compensation

#### Municipal:

Total compensation means the base rate of pay, overtime, and longevity payments received during a 12-month period.

## *Uniformed (Plans A and B):*

Total compensation means the base rate of pay, longevity payments, and stress or premium pay (up to 4% of base pay) received during a 12-month period.

#### Elected:

Total compensation means the base rate of pay and longevity payments received during a 12-month period.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

## 4. Final Compensation

### Municipal:

Final compensation means whichever is greater: annual base rate of pay at the time of termination or the total compensation received during the 12 months immediately preceding termination, including supplementary compensation received under Civil Service Regulation No. 32.

*Uniformed (Plans A and B):* 

Same as municipal.

Elected:

Same as municipal.

## 5. Average Final Compensation

#### Municipal:

Average final compensation means the arithmetic average of the total compensation received during the three calendar or anniversary years producing the highest average.

## *Uniformed (Plans A and B):*

Average final compensation means the arithmetic average of the total compensation received during the two calendar or anniversary years producing the highest average.

Elected:

Same as municipal.

#### 6. Employee Contributions

#### Municipal:

Total employee contributions equal 30% of the gross normal cost for all members in the municipal division. Exempt and non-represented employees hired after January 13, 1999 (and current employees as of January 13, 1999 that elect to do so) will contribute an additional amount to become vested in five years.

## *Uniformed (Plans A and B):*

Total employee contributions equal 5% of total compensation, but not less than 30% or greater than 50% of gross normal cost for members in the uniformed division. Police Employees hired after January 1, 2010 will contribute 6% of total compensation. Exempt and non-represented employees hired after January 13, 1999 (and current employees as of January 13, 1999 that elect to do so) will contribute an additional amount to become vested in five years.

#### Elected:

Total employee contributions equal 30% of the gross normal cost for all members in the elected division calculated under the municipal plan plus 100% of the gross normal cost that exceeds the cost for the municipal plan. Employees hired after January 13, 1999 (and current

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

employees as of January 13, 1999 that elect to do so) will contribute an additional amount to become vested in the lesser of two full terms or eight years.

## 7. Service Retirement

## **Eligibility**

## Municipal:

Each municipal employee is eligible to retire and receive a service pension at age 60 if he or she has 10 or more years of credited service or, if the employee made additional contributions to become vested in five years, five years of credited service.

## *Uniformed (Plans A and B):*

Each uniformed employee is eligible to retire and receive a service pension upon reaching age 50 and 10 or more years of credited service, or, if the employee made additional contributions to become vested in five years, five years of credited service.

#### Elected:

Each elected official is eligible to retire and receive a service pension at age 55 if he or she has 10 or more years of credited service, or, if the employee made additional contributions to become vested in the lesser or two full terms or eight years, the lesser of two full terms or eight years of credited service.

## **Benefit Amount**

### Municipal:

The service pension equals 2.2% of the employee's average final compensation multiplied by years of credited service to a maximum of 10 years, plus 2% of the employee's average final compensation multiplied by years of service over 10, subject to a maximum of 100% of average final compensation.

## *Uniformed (Plans A and B):*

The service pension equals 2.2% of the employee's average final compensation multiplied by years of credited service to a maximum of 20 years, plus 2% of the employee's average final compensation multiplied by years of credited service over 20, subject to a maximum of 100% of average final compensation.

#### Elected:

The service pension equals 3.5% of the employee's average final compensation multiplied by years of credited service, subject to a maximum of 100% of average final compensation.

HEIRON

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

## 8. Early Retirement

## **Eligibility**

## Municipal:

Each municipal employee is eligible to retire and receive a reduced service pension at age 52 if he has 10 or more years of credited service. As an alternative, a member is eligible if he or she has at least 33 years of credited service, regardless of age.

### *Uniformed (Plans A and B):*

Each uniformed employee is eligible to retire and receive a reduced service pension at age 40 if he or she has 10 or more years of credited service. Alternatively, a member is eligible if he has at least 25 years of credited service, regardless of age.

## **Benefit Amount**

## Municipal:

The annual amount is calculated the same as service retirement, reduced by 1/2 of 1% for each month the employee is younger than minimum retirement age. Benefits are not reduced if the employee has 33 or more years of credited service.

## *Uniformed (Plans A and B):*

The annual amount is calculated the same as service retirement, reduced by 1/2 of 1% for each month the employee is younger than minimum retirement age. Benefits are not reduced if the employee has 25 or more years of credited service.

#### Elected:

The annual amount is calculated the same as service retirement, reduced by 1/2 of 1% for each month the employee is younger than minimum retirement age.

#### 9. Deferred Vested Retirement

## **Eligibility**

## Municipal:

An employee who terminates employment after completing 10 or more years of credited service or, if the employee made additional contributions to become vested in five years, five years of credited service, is eligible for a deferred vested retirement if his or her contributions have not been withdrawn.

#### *Uniformed (Plans A and B):*

Same as municipal.

#### Elected:

A person terminating employment and who has completed 10 or more years of credited service, or, if the employee made additional contributions to become vested in the lesser of

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

two full terms or eight years, two full terms or eight years of credited service is eligible for a deferred vested retirement benefit provided he or she has not withdrawn contributions.

## **Benefit**

## Municipal:

The annual deferred vested benefit is determined the same as service pensions, based on average final compensation and credited service at termination. This benefit begins at the service retirement date. If a member dies before the deferred vested benefit begins, an ordinary death benefit is payable (see Ordinary Death below). As an alternative, the person terminating employment may request at any time before benefits begin a return of employee contributions (without interest) instead of the deferred vested benefit.

*Uniformed (Plans A and B):* Same as municipal.

Elected:

Same as municipal.

#### 10. Withdrawal Benefit

#### **Eligibility**

#### Municipal:

Each terminating employee who has completed fewer than 10 years of credited service (or, if the employee made additional contributions to become vested in five years, fewer than five years of credited service) will receive a withdrawal benefit equal to employee contributions (without interest).

Uniformed (Plans A and B):

Same as municipal.

#### Elected:

Each terminating employee who completed fewer than 10 years of credited service will receive a withdrawal benefit equal to employee contributions (without interest).

#### 11. Service Connected Death

### **Eligibility**

## Municipal:

The beneficiary of each active employee who dies solely from the performance of duties of the employee's position with the City is eligible for an immediate death benefit.

*Uniformed (Plans A and B):* 

Same as municipal.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

Elected:

Same as municipal.

## **Benefit Amount**

## Municipal:

The death benefit equals the sum of the total employee contributions paid to the Retirement System (without interest), plus a yearly payment of 60% of the employee's final compensation reduced by any death benefits payable under the Workers' Compensation Act. This benefit is payable to the spouse until his or her death or remarriage, whichever occurs first. Dependent children are entitled to an additional 10% of final compensation yearly payment for each dependent child (up to two children) until the child reaches 18. This total benefit shall not exceed 80% of final compensation.

If there is no spouse, or if the spouse dies or remarries, each dependent child (up to three children) is eligible for a yearly payment of 25% of final compensation until the child reaches age 18. If there is no spouse or dependent children, each dependent parent is entitled to a 15% of final compensation yearly payment for life.

*Uniformed (Plans A and B):* Same as municipal.

Elected:

Same as municipal.

## 12. Ordinary Death

### Eligibility

Municipal:

The beneficiary of an active employee (or a terminated vested employee who did not withdraw his employee contributions) who dies after completing 10 years of credited service (or five years of credited service if additional contributions were made) or who has reached age 60 is eligible for an immediate death benefit equal to an annual pension or a lump sum payment, whichever the beneficiary chooses.

The beneficiary of an active employee who dies before completing 10 years of credited service (or five years of credited service if additional contributions were made) or reaching age 60 is eligible for a lump sum payment.

The beneficiary may be any relative by blood or marriage.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

*Uniformed (Plans A and B):* 

The beneficiary of any employee who dies while actively employed (or a terminated vested employee who did not withdraw employee contributions) is eligible for a death benefit equal to an annual pension or a lump sum payment, whichever the beneficiary chooses.

The beneficiary may be any relative by blood or marriage.

#### Elected:

The beneficiary of an active employee (or a terminated vested employee who did not withdraw contributions) who dies after completing 10 years of credited service or reaching age 55 is eligible for an immediate death benefit equal to an annual pension or a lump sum payment, whichever the beneficiary chooses.

The beneficiary of an active employee who dies before completing 10 years of credited service or reaching age 55 is eligible for a lump sum payment.

The beneficiary may be any relative by blood or marriage.

## **Annual Pension**

## Municipal:

The annual ordinary death pension, payable for life, is equal to the regular service pension the employee would have received had he or she been eligible to retire on the day before death and had elected Option 2, joint and 100% contingent annuitant (see Survivor Benefits below).

#### *Uniformed (Plans A and B):*

The annual ordinary death pension, payable for life, is equal to the regular service pension the employee would have received (based on a minimum of 10 years of service) had he been eligible to retire on the day before death and had elected Option 2, joint and 100% contingent annuitant (see Survivor Benefits below).

#### Elected:

Same as municipal.

## **Lump Sum Payment**

#### Municipal:

The lump sum payment is equal to the deceased employee's average final compensation multiplied by years of credited service (not to exceed the service in the denominator) and divided by the number of years of credited service needed to become vested, plus the deceased employee's contribution to the Retirement System (without interest) minus the total amount of the deceased employee's life insurance which was paid by the City.

*Uniformed (Plans A and B):* 

Same as municipal.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

Elected:

Same as municipal.

## 13. Service-Connected Disability

## **Eligibility**

## Municipal:

An active employee found by the Board of Pensions and Retirement to be mentally or physically permanently incapacitated from any further performance of duties due solely to the result of the performance of duties is eligible for an immediate service-connected disability pension. The application for benefit must be made within one year after termination of employment.

*Uniformed (Plans A and B):* Same as municipal.

#### Elected:

An active employee found by the Board of Pensions and Retirement to be mentally or physically permanently incapacitated from any further performance of duties due solely to the result of the performance of duties is eligible for an immediate service-connected disability pension.

#### **Benefit Amount**

## Municipal:

The service-connected disability benefit is equal to the employee's contributions to the Retirement System, plus a yearly benefit of 70% of the employee's final compensation, reduced by any disability benefits payable under the Worker's Compensation Act.

If he or she withdraws contributions, the benefit is payable for his or her lifetime only.

If the employee leaves employee contributions with the Retirement System, he or she may choose a survivor benefit option (see Survivor benefit below) and the beneficiary will continue receiving benefit payments after his or her death.

*Uniformed* (*Plans A and B*) Same as municipal.

Elected:

Same as municipal.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

## 14. Service-Connected Disability Periodic Adjustment

## **Eligibility**

## Municipal:

An employee who is receiving a service-connected disability benefit who is totally disabled and does not collect Social Security disability insurance benefits is eligible for a periodic adjustment.

*Uniformed (Plans A and B):* 

Same as municipal, but only applies to police employees.

Elected:

Same as municipal.

## **Benefit Amount**

## Municipal:

The disabled employee's pension will be increased in the eighth year after separation by the percentage raise given in the previous year to active employees in his or her job class. The adjustment will continue each year until the employee's 65th birthday.

*Uniformed (Plans A and B):* 

Same as municipal.

Elected:

Same as municipal.

## 15. Ordinary Disability

## **Eligibility**

## Municipal:

An active employee found by the Board to be mentally or physically permanently incapacitated from the further performance of duties due to an accident or illness not caused by the performance of duties is eligible for an immediate ordinary disability benefit provided he or she has at least 10 years of credited service (or five years of credited service, if additional contributions were made). The application for benefits must be made within one year after termination.

#### *Uniformed (Plans A and B):*

Same as municipal, except that fire employees only need five years of credited service and police employees have no service requirement if the disability is permanent and total. Police employees with permanent and partial disability need 10 years of credited service (or five years of credited service, if additional contributions were made).

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

#### Elected:

An active employee found by the Board to be mentally or physically permanently incapacitated from the further performance of duties due to an accident or illness not caused by the performance of duties is eligible for an immediate ordinary disability benefit provided he or she has completed at least 10 years of credited service, or eight years if additional contributions were made.

## **Benefit Amount**

### Municipal:

The annual ordinary disability benefit is equal to the benefit determined under the service pension formula using average final compensation and credited service as of the date of disablement.

If the employee is eligible for or receiving workers compensation, no benefit is payable. Such employee may apply for benefits at retirement age.

## *Uniformed (Plans A and B):*

Same as municipal, except each eligible employee is automatically credited with a minimum of 10 years of service to calculate the annual benefit.

#### Elected:

The annual ordinary disability benefit is equal to the benefit determined under the service pension formula using average final compensation and credited service as of the date of disablement.

#### 16. Survivor Benefits

#### **Eligibility**

#### Municipal:

Service pensions, deferred vested benefits, service-connected disability benefits, and ordinary disability benefits are payable under three optional forms. Options 2 and 3 provide benefits actuarially equivalent to a lifetime only pension while Option 1 has no reduction.

Option 1 - A benefit is payable to the employee providing on his death, the beneficiary will receive a lump sum equal to the excess, if any, of the employee's contributions over the sum of the payments received.

Option 2 - A reduced benefit payable to the employee with the provision that 100% of the reduced benefit will continue to be paid to the designated beneficiary for life after the death of the employee.

Option 3 - The same as Option 2 except only 50% of the reduced benefit is continued to the designated beneficiary.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

*Uniformed (Plans A and B):* 

Same as municipal, except that fire employees may also elect Option 4:

Option 4 - Upon the employee's death, 50% of the benefit will continue to be paid to the surviving spouse for life, provided the employee and spouse were married for two years before retirement and at death. If there is no eligible spouse at the time the employee dies, or the spouse dies before the full amount of the contributions have been returned, 50% of the benefit is continued to dependent children until age 18, or if no dependent children, payments are given to dependent parents for the remainder of their lives. In addition, Option 4 provides for a guaranteed return of employee contributions as described in Option 1 above.

Elected:

Same as municipal.

#### 17. Service-Connected Health Care Benefit

## **Eligibility**

Municipal:

Not applicable.

*Uniformed (Plans A and B):* 

In the event of the death of a uniformed employee during the performance of his or her duties, a service-connected health care benefit may be payable to the surviving spouse and dependent children. Regular payments will be made of the appropriate cost of maintaining medical, dental, optical and pharmaceutical prescription benefits in force at the time of the employee's death. Payments to the spouse cease upon remarriage and to dependent children at age 18 (age 22 if a full-time student) or, if dependent due to physical or mental infirmity, the duration of the infirmity. The health care benefits are not paid from the pension trust assets.

Elected:

Not applicable.

## 18. Deferred Retirement Option Plan (DROP)

## **Eligibility**

Municipal:

Employees that have 10 years of service and reached the minimum retirement age may elect to participate in the DROP. During this time, their accrued benefit will go into a DROP account and will earn interest at a specified rate (4.5% as of July 1, 2009). The benefit is calculated as of the date they entered the DROP. At the end of the DROP, the employees' accrued monthly benefit will commence, plus they will receive the accumulated amount of the accrued benefit paid to the DROP, as well as the interest earned on such benefit.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – 1987 PLAN

| Uniformed (Plans A and | B): |
|------------------------|-----|
| Same as municipal.     |     |

Elected:

Same as municipal.

## APPENDIX D SUMMARY OF PLAN PROVISIONS – PLAN 10

Police employees hired on or after January 1, 2010 will be placed in a new retirement program adopted by the City (Plan '10). New employees will have the option to participate in a defined benefit plan with a different benefit calculation formula and eligibility and vesting rules, and a defined contribution plan with eligibility for City matching contributions, or enter Plan 87 but with increased employee contributions. The employee contribution rate would be 6.0% instead of 5.0%.

Existing Plan A participants had the option, for a period of ninety (90) days, to make an irrevocable election to enter the new pension plan. Employees who elected do so will have their benefits in the existing pension plan frozen, and their future earnings and service will count only toward benefits under the new pension plan.

## APPENDIX E GLOSSARY OF TERMS

## 1. Actuarial Liability

The Actuarial Liability is the difference between the present value of all future system benefits and the present value of total future normal costs. This is also referred to by some actuaries as the "accrued liability" or "actuarial liability."

## 2. Actuarial Assumptions

Estimates of future experience with respect to rates of mortality, disability, turnover, retirement rate or rates of investment income and salary increases. Actuarial assumptions (rates of mortality, disability, turnover and retirement) are generally based on past experience, often modified for projected changes in conditions. Economic assumptions (salary increases and investment income) consist of an underlying rate in an inflation-free environment plus a provision for a long-term average rate of inflation.

#### 3. Accrued Service

Service credited under the System which was rendered before the date of the actuarial valuation.

## 4. Actuarial Equivalent

A single amount or series of amounts of equal actuarial value to another single amount or series of amounts, computed on the basis of appropriate actuarial assumptions.

### 5. Actuarial Funding Method

A mathematical budgeting procedure for allocating the dollar amount of the actuarial present value of a retirement system benefit between future normal cost and actuarial accrued liability. Sometimes this is referred to as the "actuarial funding method."

#### 6. Actuarial Gain (Loss)

The difference between actual experience and actuarial assumption anticipated experience during the period between two actuarial valuation dates.

### 7. Actuarial Present Value

The amount of funds currently required to provide a payment or series of payments in the future. It is determined by discounting future payments at predetermined rates of interest, and by probabilities of payment.

## APPENDIX E GLOSSARY OF TERMS

### 8. Amortization

This term represents the paying off an interest-discounted amount with periodic payments of interest and principal—as opposed to paying off with a lump sum payment.

## 9. Annual Required Contribution (ARC) under GASB 25

The Governmental Accounting Standards Board (GASB) Statement No. 25 defines the Plan Sponsor's "Annual Required Contribution" (ARC) that must be disclosed annually and is defined in accordance with the City's Funding Policy.

#### 10. Normal Cost

The actuarial present value of retirement system benefits allocated to the current year by the actuarial funding method.

## 11. Unfunded Actuarial Liability (UAL)

The difference between actuarial liability and valuation assets. This is sometimes referred to as "unfunded actuarial accrued liability."

Most retirement systems have unfunded actuarial liabilities. They typically arise each time new benefits are added and each time experience gains/losses are realized.

The existence of unfunded actuarial accrued liability is not in itself an indicator of poor funding. Also, unfunded actuarial liabilities do not represent a debt that is payable today. What is important is the ability of the plan sponsor to contribute the annual amortized cost to fund down the unfunded actuarial liability and the trend in unfunded actuarial liability amount.
