Tip: Save the pdf documents to your computer so that you do not have to log in to your account every time you want to study.

Note: You will need to print and bring both documents to the mini-academy. (You will receive separate notification of the date, time and location of the mini-academy)

Computers are available at your local Philadelphia Free Library Branch.

Each branch location also has hard copies of the study guide. The TPM study guide must be used to study at the library and cannot be loaned out. Click [here](#) for a list of branch locations.
