

In the Philadelphia area, everyone with HIV can receive high quality health care from experienced medical care providers regardless of whether or not they have health insurance.

In this guide we have tried to include every Ryan-White-funded primary care and dental service agency in the Philadelphia EMA. Additionally we have added programs that serve people regardless of ability to pay that are not Ryan White funded. If you think there is a clinic we should add, please contact us at the number below.

Each clinic listing has information about eligibility, hours, the names of clinicians who practice there, which Medical Assistance HMO the clinic accepts, any fees charged, languages spoken and if the clinic has a program for people without insurance. Each listing includes the phone numbers and addresses.

This guide is updated annually. Please call ahead to confirm information is still current.

There are five ways to use this guide to find a clinic.

Information is indexed by 1) clinician's name, 2) zip code, 3) neighborhood, 4) medical clinics in alphabetical order and 5) dental clinics listed in alphabetical order.

Using this guide it is possible to choose a clinic based on clinician, location, or clinic.

*Inclusion in this manual does not indicate quality of care provided.
Please report any errors found to the staff at the AIDS Library at 215-985-4851.*

Aaron, Erika MSN, CRNP	Partnership Comprehensive Care Practice
