

For Contractors Bidding on “Green” Projects

The Philadelphia Water Department will be hosting the third in a series of construction seminars on September 30 from 8:30AM to 10:30AM at the department’s Fox Street headquarters at Fox and Abbottsford Road in the East Falls section of the city.

The seminars are designed to provide important information to contractors about the department’s green stormwater infrastructure (GSI) contracts. Over the next two decades, PWD will be bidding over \$2 billion in construction projects to meet the city’s ambitious *Green City, Clean Waters* goals. Our contractors are essential partners. The seminars are “highly recommended” to all contractors that bid on GSI projects. The targeted audience for the seminars is the contractor foreman, superintendent and/or owner.

The September seminar will cover:

- Quality of Life Specs – Feedback on draft specs to be incorporated into all contracts
- ADS Presentation – Proper installation of HDPE piping
- OEO / Job Opportunities Update

Meeting Date: Tuesday, September 30th 8:30AM - 10:30AM

Meeting Location: PWD Fox Street Facility (Fox & Abbottsford Road - East Falls)
Parking is available along Fox Street.

RSVP for this event! Contact Janira Barroso at janira.barroso@phila.gov

Please check PWD’s website <http://phillywatersheds.org/take-part> for more information.
