Subject: Water Rate Increase

To who it may concern my , name:IsMisael Carbonell ,I Live street Philadelphia pa19134.IDo not agree,with the proposition that the water Dept.is coming up with.I will tell you why and this is my personal opinion.what the water dept,officials should do is stop worrying about raising the bill %12,And start to fix the problems that they have by fixing the pluming that comes Frome the streets into are homes ! tThats a start ! There's lots off individual that are making lots off money and they can't reasovel this problem and the poor has to pay the altimate price and continue to be poor cause the government won't touch this mater. Thank you for listening.youres trully Mr.Carbonell!
