EXECUTIVE ORDER NO. 4-17

HIPAA COMPLIANCE DIRECTIVE
(As amended February 16, 2018)

WHEREAS, The Health Insurance Portability and Accountability Act of 1996 ("HIPAA") requires entities that perform certain health care functions to comply with regulations related to the use, disclosure, and security of protected health information; and

WHEREAS, the City of Philadelphia (the "City") is committed to compliance with all applicable laws relating to data privacy and security including but not limited to the Standards for Privacy of Individually Identifiable Health Information (the "Privacy Rule"), the Security Standards for the Protection of Electronic Health Information (the "Security Rule"), and the Breach Notification Rule issued pursuant to HIPAA (collectively, the "HIPAA Rules"); and

WHEREAS, the City performs functions as a health care provider and health plan ("Covered Functions") that make it subject to the HIPAA Rules, as well as functions that do not; and

WHEREAS, HIPAA permits entities that are engaged in both Covered Functions and non-covered functions to designate themselves as "Hybrid Entities," in which case the HIPAA Rules do not apply to the non-covered functions; and

WHEREAS, in 2002, the City convened a HIPAA Steering Committee to oversee the implementation of the City’s HIPAA compliance program, and the Steering Committee determined that the City could more effectively and efficiently operate by declaring itself a Hybrid Entity and formally designating the City’s health care components, in accordance with 45 C.F.R. §164.105 (a)(2)(iii)(D); and

WHEREAS, based on this assessment, the City identified those City departments, units, and workforce members that perform Covered Functions ("Covered Units") or perform business, legal, financial, or administrative functions involving access to protected health information on behalf of theCovered Units ("Support Units"), both of which must comply with the HIPAA Rules; and

WHEREAS, as a Hybrid Entity, the City has ongoing responsibilities to implement reasonable and appropriate policies and procedures to ensure that its Covered Units and Support Units comply with the HIPAA Rules; and

WHEREAS, as a Hybrid Entity, the City is required to designate a privacy official who is responsible for the development and implementation of the policies and procedures required by the Privacy Rule, as well as a security official who is responsible for the development and implementation of the policies and procedures required by the Security Rule; and

WHEREAS, the City recognizes that its designation of Covered Units and Support Units is a dynamic and ongoing process that requires periodic reassessment and amendment, and has determined that review and re-designation of such Covered Units and Support Units is appropriate at this time; and

WHEREAS, oversight and direction at the executive level is a necessary component of any effective HIPAA compliance program;
