Interest and penalty shall be added to the amount of tax not paid by the statutory due date. You will not receive written confirmation of your extension request. **NOTE:** If you have filed for an automatic federal extension but do not believe you will owe any tax, you do not need to file an extension coupon.

**Allocation versus Apportionment of a Nonresident's Net Profits**

A nonresident individual, partnership, association or other unincorporated entity conducting or carrying on any business, profession, trade, enterprise or other activity is required to pay the Net Profits Tax (NPT) on the entire net profits of the business if all activity is conducted within the City of Philadelphia. This is true despite the absence of a Philadelphia office or business location.

Where a nonresident maintains both Philadelphia and non-Philadelphia branch offices, the taxpayer may allocate net profits between or among the Philadelphia and non-Philadelphia branch locations. The taxpayer must be prepared to show the Revenue Department that each branch office or location is self-sustaining and established. This is a question of fact, depending on the particular circumstances in each case. One factor (of many) used by the Department to support a branch office is the presence of separate branch accounting books and records to support the allocation of the net profits between or among the various branch offices. In the absence of separate accounting records, the nonresident taxpayer must apportion their net profits using the three-factor apportionment formula. Refer to Income Tax Regulation 222 at [www.phila.gov/revenue](http://www.phila.gov/revenue).
