Summary Information

| | |
|-------------------------|--|
| Repository | Fairmount Archives |
| Title | Basement recovery drawings |
| Date [bulk] | Bulk, 1870-1921 |
| Date [inclusive] | 1841-1983 |
| Extent | 100.0 Linear feet |
| Language | English |
| Abstract | This collection consists of maps, plans and drawings which were recovered from the basement of Memorial Hall in the 1980s. |

Preferred Citation note

[Description and date of item], FP.2010.008, Basement Recovery Drawings, Fairmount Park Historic Resource Archives.

Scope and Contents note

This large collection spans hundreds of maps, plans and drawings of various areas of the Fairmount Park system. It is particularly strong on watershed parks, especially East and West Fairmount Park and Wissahickon Valley Park, and contains limited documentation of a few of the smaller neighborhood parks. Beyond locale, the types of plans also differ. Included are landscape maps, utility plans, structural drawings and topographic plans. Formatting varies widely, and materials range from coated linen to blueprints. The majority of items are large-scale, although there are instances of half-size plans throughout.

Conditions Governing Access note

This collection is open for research, however due to the poor condition and fragility of many of the documents use will be supervised by Archives staff.

Conditions Governing Use note

Copyright restrictions may apply. Please contact the Archives with requests for copying and for authorization to publish, quote or reproduce the material.

Related Materials

Related Archival Materials note

Please see the Centennial Exhibition Collection for items which were arranged separately due to content, but which were also originally found in the basement of Memorial Hall.
