

May 1, 2018

To WRB and participants:

As a result of new information provided by city attorney, I reiterate my request to receive any and all records, payments, emails, etc. related to the reporting, management, identification, repair and reconstruction of long lateral problems and failures throughout the city. This information is to include addresses, names (to be redacted), dates, contractors used, payments made (either by PWD, homeowner or other arrangements).

I thank you once again for your consideration of this issue and look forward to my opportunity to review and question these documents at a technical hearing in the near future.

Michael Skiendzielwski
