

CUES

Comprehensive User Engagement Site:
A supervised injection facility

CUES WILL PREVENT DEATHS

- Trained staff ready to provide naloxone.
- Estimates say CUES could prevent up to 75 people from dying each year.
- Nearly 1,200 people died from an overdose in Philadelphia last year.

STERILE MEDICAL SUPPLIES

- Prevent spread of HIV, Hepatitis C.
- Drugs will not be provided at a CUES.

A supervised injection facility in Vancouver, Canada.

OPERATED BY INDEPENDENT ORGANIZATIONS

- The City will not operate or pay for a CUES.
- Community non-profits or medical organizations will operate a CUES.

HEALTH & SOCIAL SERVICES WORKERS ON SITE

- Help people access treatment for addiction.
- Help people find housing.

SAFER NEIGHBORHOODS

- Help keep neighborhoods free from littered syringes.
- Minimize public use of substances.
