Outdoor Public Serving of Food Safety Permit

The City of Philadelphia thanks you for your interest in serving safe food to individuals who are homeless or hungry and are in need of safe, nutritious food without charge.

To make sure that the food you serve does not expose people to foodborne illnesses the City requires you to take certain steps to make sure the food you serve is safe **and that all waste is properly disposed of so as not to attract vermin.**

Please read the food safety requirements, complete the attached form and submit it, along with your certificate documenting completion of Food Safety Training, via US mail or email to:

Dr. Palak Raval-Nelson, Director
Environmental Health Services

Outdoor Public Serving of Food Safety Permit Application

Outdoor Public Serving of Food Safety Operation Requirements: To ensure the safety of the food you are serving you must agree to the following terms when applying for an Outdoor Public Serving of Food Safety Permit:

- 1) **A food safety trained person** (who has attended the Philadelphia Department of Public Health's free Outdoor Food Safety Training or another certified food safety course) will be in charge and on site during the entire time food is provided to the public.
- 2) **No bare hand contact** with ready-to-eat foods will occur.
- 3) **A temporary hand washing station** will be available.
- 4) **Hands will be properly washed** prior to food handling and between glove changes.
- 5) If all food items served are prepackaged, **hand wipes** or **hand sanitizer** may be used.
- 6) **All foods will be completely protected from contamination** during transportation, preparation, display, and service.
- 7) **All food will be transported and served at the proper temperature.**
- 8) **The type of kitchen** required to prepare food depends on how quickly after preparing the food it will be served:
 - a. All food which is served **more than four hours after beginning preparation** must be prepared in an approved **kitchen**.
 - b. Food may be prepared in a private kitchen if the food is served **within four hours** from the start of the preparation of the food. Pre-preparation the night before or days before the time of service, for example marinated foods, is not allowed due to the potential for growth of microorganisms which can lead to foodborne illness. Any facility where food is prepared must have the following:
 - i. Running hot and cold water at the kitchen and bathroom sinks, along with soap and paper towels;
 - ii. Refrigeration/freezer unit maintaining temperature 41degrees F or less for the refrigerator and 0 degrees F for the freezer;
 - iii. Vermin free home;
 - iv. One-compartment kitchen sink
 - v. Open top container large enough for immersing food service articles for sanitization;
 - vi. Sanitizer (for example, chlorine bleach);
 - vii. Stove/oven/range in clean and good working condition for cooking;
 - viii. Stem thermometer to measure food temperature during cooking and transport; and
 - ix. Washable, insulated food containers for transportation of the food.
- 9) No food prepared in a private kitchen may be served more than four hours after the start of preparation.
- 10) **Self-Service of food by recipients is never permitted.**
- 11) All refuse, waste, and **trash generated must be removed** and suitably discarded, immediately following the event, by the person, group, or organization engaged in the outdoor public serving of food.
- 12) The person, group, or organization responsible for the operation must post prominently at the feeding site during all hours of operation **an Outdoor Public Serving of Food Safety Permit** provided by the Department.
