Instructions

INSTALLATION PERMIT APPLICATION FOR MECHANICAL VENTILATION SYSTEMS FOR ENCLOSED PARKING GARAGES

This permit is issued for the construction and temporary operation of the equipment listed in the application until Air Management Services performs conformance test and issues an air pollution license.

1. **This installation permit application must be submitted to and approved by AMS prior to the installation or modification of a mechanical ventilation system that is required for a parking garage under Air Management Regulation XII.** A mechanical ventilation system is required for any enclosed parking garage. An installation permit is not required for parking garages that are not enclosed and do not require a mechanical ventilation system.
2. Complete the application form and submit in duplicate along with the application fee payable to the "City of Philadelphia". The fee is \$645.
3. All parking garages must meet the requirements of Air Management Regulation XII and the Air Management Regulation XII Procedures and Guidelines Related to the Review and Approval of Automotive Facilities. You can find these at <https://www.phila.gov/documents/air-management-guidelines-and-regulations/> .
4. All information in the application is available to the public, if you wish to keep some information confidential, please place the stamped confidential information separately along with the requested letter. AMS will review the confidential request and advise you as appropriate.
5. The following items must be submitted with each application:
 - a. A floor plan for each level, preferably on an 8.5" x 11" or 11" x 17" page.
 - b. Information on the design, construction, and operation of the mechanical ventilation system.
 - c. For garages containing 35 or more parking spaces:
 - i. Information on the design, installation, and operation of the carbon monoxide (CO) monitoring system.
 - ii. A copy of the Emergency Action Procedure required Air Management Regulation XII Section IV.B.
6. Each Floor Plan must include the following information:
 - a. The total floor area in square feet.
 - b. The location and number of parking spaces on that level.
 - c. The location and capacity (in cubic feet per minute) of each air supply and exhaust vent.
 - d. The location where the mechanical ventilation system is controlled and monitored.
 - e. The location of each CO monitoring point.
 - f. The location of any occupied spaces such as a guard or ticket taker booth.
 - g. The immediate area surrounding the garage, to the extent that AMS can verify that supply air and exhaust points comply with Condition 4 of the Air Management Regulation XII Guidelines.
 - h. If the level is below grade, it must be noted.

7. An Installation Permit Application for Internal Combustion Engines must be submitted for any internal combustion engine rated 100 HP or greater. The application can be found at <https://www.phila.gov/documents/apply-to-install-equipment-that-emits-or-controls-air-pollution/>.

8. All submissions and correspondence should be directed to:
