Philadelphia Revenue Department ♦ EZ-Pay Service

Electronic Funds Transfer

"It's Free and Easy"

Welcome to the Philadelphia Revenue Department EZ-PAY Service provided in conjunction with PNC Bank, National Association. This manual will provide instructions for making your electronic tax payment to the Philadelphia Revenue Department.

The electronic payment mechanism used to move the tax payment information and funds is the Automated Clearing House (ACH) Network. The Philadelphia EZ-PAY Service allows you to electronically initiate your tax payment via the ACH Debit or Credit Method.

ACH Debit Method

When you make your tax payment directly with Philadelphia EZ-PAY, an ACH Debit transaction will be initiated, as per your instructions, against your bank account. Payments can be initiated via a touch-tone or operator-assisted phone call. Additional payment information needed to update your tax liability with the Philadelphia Revenue Department is collected during the phone call.

Prior to making your first payment, you may want to test the system to become more familiar with the process. Included below is an identification number and password for use with either the touch-tone or the voice operator method. Use of the test session will give you the opportunity to simulate making a payment, but WILL NOT result in any charge against your bank account. Please refer to the examples given for the touch-tone and operator methods in this manual and follow the steps for initiating a payment.

"DEMONSTRATION ONLY"

Reporting Identification #:	23459900017
Password:	1000
Touch-tone Telephone #:	1-800-950-1383
Operator Assisted Telephone #:	1-800-234-5653

ACH Credit Method

You can also initiate your tax payment to Philadelphia EZ-PAY using a service offered by your financial institution which will create an ACH Credit transaction on your behalf, debiting your bank account and crediting the City of Philadelphia's Bank Account. When sending your electronic tax payment transactions via ACH Credit, you include the additional payment information needed to update your tax liability with the Philadelphia Revenue Department by using extended record formats called addenda.

The National Automated Clearing House Association (NACHA) formats you need to use if you initiate an ACH Credit payment through your financial institution are provided in the section on How to Make a Tax Payment via ACH Credit. (See page 17)

What is Philadelphia EZ-Pay and How Does It Work?

ACH Debit Method

Philadelphia EZ-PAY involves the payment of your tax liabilities electronically via the ACH Network instead of by check. When you initiate your tax payment through Philadelphia EZ-PAY, you authorize money to be deducted from your bank account and credited to the City of Philadelphia's bank account via the ACH Debit method. The payment amount will be applied to your tax account. The City of Philadelphia never has access to your bank account. You, the taxpayer, are in control of the amount of the tax payment and when your bank account is debited.

The EZ-PAY ACH Debit method works in four easy steps:

- 1) You complete and return an enrollment form.
- 2) Enrollment forms are reviewed by the Philadelphia Revenue Department and then forwarded to PNC Bank, National Association for set-up.
- 3) After set-up, you will receive instructions and a password for making a payment.
- 4) After receiving the initial password, you can use the EZ-PAY ACH service to pay various City taxes; just pick up any touch-tone phone, dial 1-800-950-1383 and you are ready to make your payment. You will be prompted to change the password with your first transaction. If you are using a rotary phone, dial 1-800-234-5653 for an operator assisted call.

An easy-to-use, menu-driven system will guide you through the steps necessary to enter the data and to process your payment. There is no cost to you for this service.

ACH Credit Method

If you choose to make your tax payments using the ACH Credit method, you must initiate the tax payment through your financial institution after completing and returning the enrollment form on page 10 of this manual. The tax payment must be made prior to your financial institution's ACH processing deadlines. The ACH Credit tax payment must be delivered to the City of Philadelphia's bank account on the tax due date. The tax payment must be formatted in the NACHA CCD+ TXP format (see How To Make A Tax Payment via ACH Credit beginning on page 20).

How to Make a Tax Payment via ACH Credit

With Philadelphia EZ-PAY, you have the flexibility to make your tax payment directly through your financial institution using a service they offer to originate an ACH Credit transaction. If you elect to make your payment using ACH Credit transactions, you will need to make sure you are eligible to use it.

You should share this information with your banking institution to ensure they are aware of the ACH Credit transaction requirements.

This section explains what you need to do before making your first tax payment. It also provides the ACH formats that must be used when originating your tax payments, the Routing Transit Number (RTN) and the Account Number to which the payments must be credited, and other operational issues related to the timing of origination of the ACH Credit tax payment.

Prior To Making Your First ACH Credit Tax Payment

- 1) Check with your Financial Institution to make sure they can originate your ACH Credit tax payments. You will also need to check with them to determine fees charged to originate the ACH Credits.
- 2) Provide the ACH Credit section of the Philadelphia EZ-PAY User Manual to your financial institution or Designated Agent so they can review the ACH Credit requirements. You must ensure they can originate your ACH Credit tax payment in CCD+ TXP addenda format.

If your financial institution or Designated Agent will not originate ACH Credit tax payments for you, you can check with another financial institution or enroll to make your tax payment directly through Philadelphia EZ-PAY using the ACH Debit payment method.

- 3) Obtain your financial institution or Designated Agent ACH processing deadline and holiday schedule. Please make sure you understand their ACH processing deadlines for delivery of your ACH Credit tax payments on the business day prior to your tax due date.
- 4) Please call the E-GOV Unit at (215) 686-2694, 6628 or 6459 when you are ready to send a \$1 test payment. The Philadelphia bank account number will be provided at that time. The other Philadelphia Revenue Department information is:

Receiving Financial Institution (RDFI): PNC Bank, N.A.

Routing Transit Number (RTN): 031000053

Account Number: to be provided

Account Name: City of Philadelphia

After the \$1 test payment is received, we will call you to verify that it processed correctly. The \$1 test payment can be deducted from your first tax payment.

- 5) Philadelphia EZ-PAY will send a Notification of Change (NOC) through your financial institution if an error in format or syntax is identified. Review the NOC and make any changes identified.
- 6) Originate your first ACH Credit tax payment at least one business day prior to your tax due date. Your ACH Credit tax payment must settle into the Philadelphia Revenue Department's account on the tax due date.

If you make a duplicate payment, the Philadelphia Department of Revenue must approve an ACH Credit reversal. For approval and specific instructions for initiation of an ACH Credit reversal, please contact the Philadelphia EZ-PAY EFT unit at (215) 686-6582, 6628 or 6459.
