My name is Jonathan Sher and I am the President of Friends Orianna Hill Park a 501c (3) non-profit created to own and maintain an open green space in the heart of Northern Liberties. Our park is comprised of a community garden, a picnic area and a dog run- all of it earth and grass and shrub and several large full grown trees. All of it pervious. We are run entirely by volunteers and funded by small donations so both the financial and administrative costs of storm water runoff bills are considerable. The passage of Bill No. 160523 would provide substantial benefit to our organization and organizations like ours which provide significant quality of life benefits including absorbing storm water runoff, at little financial cost to the city.
