CITY OF PHILADELPHIA

PHILADELPHIA WATER DEPARTMENT PRESENTATION

RATE BOARD HEARING

Wednesday, November 16, 2016

MINUTES of FORMAL HEARING

- - -

LOCATION: 1515 Arch Street, 18th Floor Philadelphia, Pennsylvania

REPORTED BY: ANGELA M. KING, RPR
Registered Professional Reporter

- - -

HELD BEFORE:

NANCY BROCKWAY - HEARING OFFICER BERNARD BRUNWASSER - CHAIR SONNY POPOWSKY, BOARD MEMBER

TIME HELD: 10:30 a.m. - 10:56 a.m.

Page 2 Page 4 1 1 approved by City Council. They also have their 2 HEARING OFFICER BROCKWAY: Good morning. 2 website which is www.phila.gov/org/rateboard 3 3 My name is Nancy Brockway. I was the Hearing where you can see all the information on this 4 Officer appointed by Philadelphia Water Rate 4 rate and past rates. 5 Board to conduct hearings for it. 5 The Public's Role. It's very important 6 This is Hearing of the Board concerning 6 for the public to be involved. We are always 7 7 the request by the Department to exempt community happy to see a lot of attendance at public 8 gardens paying a monthly water charge as long as 8 meetings, provide testimony, get opportunities to 9 9 they meet certain criteria. There was an send letters to the Rate Board. But the real 10 ordinance passed, as you know, and signed in late 10 goal is to make sure that the voices here are June. I think that the Department will have more 11 11 heard whenever making any kind of proposed change 12 12 information that they are going to provide in a to our rates and charges. We appreciate you 13 presentation that they will shortly give. 13 being here today. 14 14 And then, this is a hearing for public Background first on the stormwater rates 15 15 comments. So once the Department has provided for community garden. The ordinance exemption, 16 its own review, the Board will entertain 16 the special discounted stormwater charge for 17 questions and comments from you all. If you have 17 eligible community gardens that can go up to a 18 a particular question about your particular 18 hundred percent. That would be an exemption of 19 situation, there are a number representatives of 19 stormwater fee. This ordinance was passed by 20 the Department here who can talk with you, I am 20 City Council this past summer. Mayor Kenney 21 sure, offline. I think that's all we have with 21 signed the ordinance in June. Community gardens 22 22 preliminary. representatives including PHS, Neighborhood 23 Without further ado, will turn it over 23 Gardens Trust sent a letter to the Water 24 to Joanne Dahme. 24 Commissioner requesting that this rate proceeding Page 3 Page 5 1 1 MS. DAHME: Good morning, everybody. I take place so this exemption can be reviewed and 2 2 am Joanne Dahme, Public Affairs Manager for the approved. Ordinance states that the exemption 3 3 Philadelphia Water Department. would become effective January 1. 4 4 On behalf of the Water Department, I The Community Garden Criterion 5 5 will be doing a very brief presentation on information. This is really important for the proposed stormwater fee exemption. The 6 public and gardeners to understand who would be 6 7 7 presentation is going to include a very brief eligible for this proposed exemption. The 8 overview on the rate process itself, background 8 principal use for urban garden parcel is for 9 9 on the exemption, some information regarding growing crops that can be edible/nonedible crops. I think that component is important because 10 community gardens, the criteria for those gardens 10 11 that will apply and be eligible for the 11 people look at vacant parcels and see grass 12 12 exemption, the rates impact to other customers growing on it. That is not an urban garden. Has 13 and general benefits of community gardens. 13 to be tilled and farmed. 14 So, the rates process. I think everyone 14 Community garden operates for the public 15 15 is aware that in 2012 voters approved a benefit, so it's not a profit making venture. 16 preparation of Water, Sewer and Stormwater Rate 16 It's often composed of volunteers of the 17 17 community, urban garden group. Could be a Board. This is an independent rate making body. 18 18 nonprofit. And also, stormwaters manage at least When the Department proposes new rates and 19 charges, that information is presented to the 19 80 percent of the property. That means that 80 20 20 Rate Board to make a determination and a final percent of the property is covered by soil and vegetation. Doesn't have asphalt and concrete 21 21 decision. The proposed stormwater exemption 22 22 falls under that category, so this information and buildings on the parcel. 23 and the proposal has come before the Rate Board. 23 In addition, what we are aware of. The 24 Rate Board consists of five members and 24 City, we know that there are a number of urban

And right now the only expenses that our garden has are to pay for our electricity, pay for the water that we use, and to maintain the public areas that allow us to continue to serve these families. These are families that directly participate in our garden, are families that are benefitting from the City Harvest Program. If we were subject to extensive stormwater charges, this would take up a significant amount of the gardens' budget, create more fees membership fees from our members, possibly as much as 50 percent, which would
