

Exhibit JP-2

Source: Rates based on published water, sewer, and stormwater rate schedules available online as of 8/1/15; median household income from the US Census Bureau 2014 data; assumes 6 CCF or 4,488 gallons of billed water and sewer discharges

- Notes:
- 1: Rate increases were approved for 2016 for the following cities: Seattle and San Francisco
 - 2: Effective June 2016, Chicago will raise rates whenever the CPI rises
 - 3: DC's rates include recent Water System Replacement Fee
 - 4: Los Angeles: For water charges, tier 1 and June were used.
 - 5: Seattle: For water charges, off-peak rate was used.
 - 6: San Jose: For water charges, Tier Evergreen and Zone 2 were used.
 - 7: For stormwater charges, an impervious area of 2,999 sq feet, 1 ERU (Equivalent Residential Unit), or Single Family Residence was used.
