In this City of brotherly love, it seems we are taxed on everything. The water is high enough now and then a rate increase of 12% in July..That brings it to almost (00.00 per year. This seems very high to me, since i am one of the people with a low monthly income, just getting by and making ends meet to where I am comfortable. Now this. and then our Mayor wants to increase taxes on soda etc.. Mayor Nutter increased our sales tax to 8% for schools etc. Not sure what you will tax next. the air we breathe Tax per year on water should be almost 900.00, excuse the error.Thats a lot for water.... , Now that sales tax was only temporary , but it is still there and not going away. Why is it a temporary tax just stays and stays.. Believe me If I could i would move out of this City.. Up in the far greater NE end we never get any benefits like other city dwellers get. Thanks for your time to read this, not that it will do any good..
