Gentlemen:

I pay my water bill every month as asked. I pay 1/3 for water, 1/3 for delivery and 1/3 for providing water to those who do not pay. This quiet, but very expensive tax, on people who work vs. those who choose not to work, is totally unfair. Turn off their water if they do not pay. Let them decide between water and Comcast or a phone which all people have. Why should I have to pay for 1/2 of this city getting water and delivery for free. The Water Department needs to face and solve this essential problem. Simply continuing to "tax" people who pay for the service is not a viable option. Wake up!!!
