Hi, Board Members

My name is Christopher Long, I was one of the residents that spoke at the PWD rate increase meeting held at 6500 Tabor Rd, recently. Although, I got a chance to speak at the meeting, after more thought on my part post meeting, I submit this statement which I would like added in the decision making process against a rate increase. I'm sure I'm not the only resident that can't afford anymore rate increases of any kind by any city agency at this time or in the near future. Its unfortunate that my wages can't support another rate increase by any city agency of any kind, in June I start payments on a student loan which will push my expenses to the brink, I'm still not sure if I will be able to keep up with these future student loan payments. Therefore, I submit to your board, there are other like me that can't afford any rate increase of any kind because we are taxed to the max presently.
