Subject: Leavng philadelphia

This is the reason people are leaving the city and moving to Delaware, Florida, etc. people cannot afford to live in the city anymore. Water, electric and gas bills are too high and now you are talking about raising the water bills again? We, the people of Philadelphia are hard workers trying to provide for our families. The water bill is not the only ills we pay. It is not our fault that the water department cannot keep afloat. Someone is not doing their job properly that's all we can say .However, the taxpayers have to foot the bill. We have seen people leaving this city and we are also! **SHIP UP OR SHIP OUT!!!**
