...which I cannot afford as it is, and despite cutting down on water usage so considerably it has negatively impacted my standard of living even further. we poor elderly cannot afford to pay out any more from our small social security checks that have remained stagnant while prices for everything have increased, leaving us with less and less. we feel we're as needy as, or even worse than, those in third world countries. An \$8 reduction in our monthly water bill would allow us to take an extra bath each month, wash our clothes more often, and maybe even buy more food. Thank you. Marlene
