Don't you think we pay enough for our utility bills. You are not talking about a 1%, 3% or even a 5% increase. 12%. City Council should be ashamed of themselves. Do you vote to give the Police and Fire employee a 12 % raise over two years? Hell No. Give us that kind of raise than we can afford to pay he utility increase. Why is it our bills increase but our pay checks don't. I vote NO to the water increase.
