As Philadelphia residents and workers restart economic and physical activities, they must do so safely—that is, in a way that prevents the COVID-19 virus from spreading from person to person. Everyone must take precautions consistently to protect not only themselves, but also their family members, friends, colleagues, and everyone else.

The precautions will vary by the activity and setting, but some general guidelines apply to all.

### Safety Checklist

**Masks**
Block the virus from spreading from infected individuals by wearing masks and requiring others to wear them.

**Barriers**
Use sneeze guards or plexiglass screens to prevent respiratory droplets expelled by infected persons from reaching others.

**Isolate**
Keep people who might be carrying the virus safely away from others (ideally at home).

**Distance**
Maintain space between people to reduce the chance that one infected individual will infect others.

**Reduce crowds**
Decrease the number of people that an infected person could pass the virus to if other steps are not successful.

**Handwashing**
Reduce the spread of virus from one person to another from touching contaminated surfaces.

**Clean**
Remove respiratory droplets that may contain virus from surfaces that people may touch.

**Communicate**
Ensure staff, customers, and others taking part in permitted activities understand this Safety Checklist.

---

This Safety Checklist must be followed at all times. If an employee, customer, or participant develops COVID-19 infection or has a positive test, businesses and other organizations must take additional precautions to stop the virus from spreading further, as described in [Guidance for Essential Businesses and Organizations During COVID-19](https://www.phila.gov/departments/health/essentialbusinesses-guidance). Required precautions include calling the Philadelphia Department of Public Health at 215-685-6741 to report positive cases.

If employees or customers want to report possible health and safety violations in the workplace related to COVID-19, please call 311.

If you have questions or concerns about the applicability of these guidelines to your business, please email business@phila.gov.

Note that guidance in this document is subject to change. Please check back for updates.

This document is intended as a plain language summary of rules for reopening in the Yellow Phase and does not replace the need to follow all applicable federal, state, and local laws and regulations.

Protections Needed

Masks

- Provide masks for employees.
- Require employees to mask while on site with exception for breaks to eat and drink, which must be taken at least 6 feet from others.

Isolate

- Ask employees to screen themselves for symptoms before every shift and prevent them from remaining on site if they have cough, shortness of breath, fever, chills, muscle pain, or new loss of taste or smell.
- It is not necessary to conduct on-site temperature measurement for staff. If you measure temperatures, use a no-touch thermometer, and do not allow anyone with a temperature of 100.4 or higher to remain on-site.
- Have sick leave policies in place so that employees excluded from the workplace do not lose earnings.
- If an employee develops COVID-19 infection or has a positive test, businesses and other organizations must take additional precautions to stop the virus from spreading further, as described in Guidance for Essential Businesses and Organizations During COVID-19. Required precautions include calling PDPH at 215 685-6741 to report positive cases.

Handwashing

- Provide handwashing stations or hand sanitizer and encourage frequent hand hygiene.

Clean

- Wipe down shared equipment with disinfectant at least every 4 hours and between users. Sanitize shared tools. See CDC guidance for details.

Communicate

- Educate employees about symptoms and prevention of COVID-19; employ Site Safety Manager for construction sites as required by State and local guidance (see below).
- Remind all employees to:
  - Stay home if they are sick or have had contact with someone with COVID-19 within the past 14 days.
  - Cover coughs or sneezes.
  - Maintain physical distancing of at least 6 feet.
  - Wear masks (see above).

Distance

- Adjust work assignments to ensure employees can stay 6 feet from each other throughout their shifts and follow limits on workers per site according to city and state requirements below.
- For construction, no more than 4 workers per residential dwelling unit; no more than 4 workers per 2000 sq. ft. at commercial sites; 1 extra worker allowed per additional 500 sq. ft.
- Use non-contact payment methods if possible.
