Dear Ms. Berryman,

Re: School District of Philadelphia: 2020/2021 Classroom Modernization projects

F. Amedee Bregy Elementary School, 1700 Bigler Street, Philadelphia, PA 19147

I am writing to request an Administrative Review by the Philadelphia Art Commission of the above classroom modernization project at the Bregy Elementary School.

The proposed work is entirely on the interior of the building and provides for the modernization of ten classrooms in support of the District's Action Plan for improving reading outcomes for its elementary students. The work is comprised of new finishes, new cabinetry, new door hardware, and electrical, lighting, and technology upgrades for the ten classrooms. The School District's goal is to carry out construction of the project during this summer's recess.

I have enclosed one set of 11x17 size architectural drawings describing the work in detail together with interior and exterior photographs each in digital PDF format.

Please let me know if there is any other information you require in order to perform your Administrative Review.

Sincerely,

Charkley.
