

AMENDED ZONING PERMIT PROCESS

All work must comply with the conditions of the approved permit. Deviations that impact conditions of the prior approval must be re-submitted through the amended Zoning Permit process.

This information bulletin summarizes the process for obtaining an amended Zoning Permit.

CONDITIONS AND LIMITATIONS

- Amendments to approved Zoning Permits are reviewed under the Zoning Code in effect at the time of the amended permit application is filed.

 - Compliant decreases in required GFA.
 - Compliant increases in required setbacks and yards;
 - Additions, removal or modifications of roof decks and roof deck access structures complying with [Section 14-604\(5\)](#) of the Philadelphia Zoning Code;
 - Compliant modifications to parking configuration;

- Modifications to permits that were approved by variance or special exception are permissible provided that the application is consistent with the variance, special exception or proviso. **Note: Modifications impacting a specific variance, special exception, or proviso shall be denied and referred to the Zoning Board.**

- Exception: Certain minor modifications may be eligible as amendments to permits granted by a variance or special exception. These modifications MUST be submitted through the Administrative Adjustment process.

See Section [14-303\(16\)](#) of the Philadelphia Zoning Code, the [Zoning Administrative Adjustment Process Guide](#) and [the Zoning Administrative Adjustment Application](#) for more information.

- A permit application awaiting a decision of the Zoning Board may only be amended under the authorization of the Board.
- Applications subject to Civic Design Review will be returned to the Civic Design Review Committee for approval.
- A change in ownership does not necessitate a new permit and is not eligible for an amendment.
