Hello,

I received notification that the water rates will be increasing by 11+% in 2021 and an additional 5+% in 2022.

I have received significant increase in my water bill during the pandemic which seems especially inappropriate during this unprecedented stressful time. I respectfully request the board to reconsider these proposed increases to Philadelphia residents. It is unsustainable to continue to pay raging city and property taxes without any additional benefits rendered.

Please feel free to contact me if that would be helpful.

Thank you for considering,
Tamar Preminger
