And carefully before you hike our water rates in the midst of a pandemic and record unemployment... First of all it's kind of disgusting, and secondly it is amoral, and finally there will be a tremendous political price to be paid by any sitting council members who support such a shameful, SHAMEFUL maneuver!! How about raising revenue by enforcing speed and traffic laws again??? That would be profitable, useful, and a tremendous benefit to the public at large! The speedway of idiots (that is Center City these days) could be a gold mine for Philadelphia 😊
