

Health Federation of Philadelphia

Opioid Response Program

The Health Federation of Philadelphia in collaboration with the Philadelphia Department of Public Health offers a range of free, CME accredited, virtual programs to help you treat patients who have substance use disorder:

Medications for Opioid Use Disorder (MOUD) Preceptor Program

Recent federal guideline changes have made it easier for providers to prescribe buprenorphine. This preceptorship program offers professional development tools to help X-waivered providers treat opioid use disorder (OUD):

- Interactive didactic live virtual training
- Practice telehealth session with a standardized patient
- Facilitated by experienced MOUD prescribers

For more information, dates, and registration, please visit our website at <https://healthfederation.org/training/opioid-epidemic-response-training>

12-Month Series: Treating and Understanding Health Outcomes for People Who Use Drugs

A series to support primary care providers to screen for and treat comorbidities associated with substance use:

- Monthly case review discussions on concurrent treatment of OUD and comorbidities
- Special programs on timely topics related to substance use and infectious disease treatment
- Learn trauma informed best practices to support compassionate primary care for people who use drugs

MOUD Provider Collaborative

The MOUD Provider Collaborative is offered to X-waivered primary care providers who want to learn from and network with their peers. Most sessions offer a brief presentation on timely issues led by local practitioners followed by open discussion. These are currently scheduled online for the 4th Thursday of the month from 8:00 am to 9:00 am.

8 Hour Live Online Waiver Training

Waiver trainings are offered periodically for MD/DOs, Nurse Practitioners, and Physician Assistants in Pennsylvania to prescribe buprenorphine to patients for the treatment of opioid use disorder. AAAP is the Data Sponsor for this waiver training. pcss@aaap.org in coordination with the Philadelphia Department of Public Health and the Health Federation of Philadelphia. Visit <https://healthfederation.org/training/opioid-epidemic-response-training> or scan the above QR code for upcoming waiver training dates.

At the conclusion of this activity participants should be able to:

- Screen and identify patients with OUD and define evidence-based treatments.
- Discuss the pharmacology of opioids as it relates to treatment of opioid use disorder (OUD) patients.
- Describe the fundamentals of office-based opioid treatment including the treatment of the co-morbid patient.
- Explain the process of buprenorphine induction as well as stabilization and maintenance.
- Discuss all FDA approved antagonist and agonist medications to treat OUD.
- Discuss basic office protocols including medical record documentation and confidentiality.
- Utilize evidence-based resources to ensure providers have the confidence to prescribe buprenorphine for patients with OUD.
- Recognize the importance of obtaining a waiver to begin treating patients with OUD.

“Funding for this initiative was made possible (in part) by grant no. 1H79TI081968 from SAMHSA.
