RE: 6801 New State Road, Unit A

Dear Mr. Farnham,

I am the Director of the non-profit organization, National Greyhound Adoption Program, that owns the property located at 6801 New State Road, Unit A. Aside from the fact that it was built around 1910, I don’t feel this building has any historic relevance whatsoever, and would best be torn down and replaced with a modern building in the future. It is currently being used as a warehouse for multiple tenants.

Very truly yours,

[Signature]

RE: 6801 New State Road, Unit B

Dear Mr. Farnham,

I am the Director of the non-profit organization, National Greyhound Adoption Program, that owns the property located at 6801 New State Road, Unit B. There is a partial framework structure that still exists on part of the property. Aside from the fact that it was built around 1910, I don’t feel it has any historic relevance whatsoever, and would best be torn down and replaced with a modern building in the future. It is currently being used for parking tractors and trailers.

Very truly yours,

RE: 6801 New State Road, Unit C

Dear Mr. Farnham,

I am the Director of the non-profit organization, National Greyhound Adoption Program, that owns the property located at 6801 New State Road, Unit C. There is a partial framework structure that still exists on part of the property. Aside from the fact that it was built around 1910, I don’t feel it has any historic relevance whatsoever, and would best be torn down and replaced with a modern building in the future. It is currently being used for parking tractors and trailers.

Very truly yours,

David G. Wolf
Director
National Greyhound Adoption Program
