

## City of Philadelphia Question Responses – Networked EV Charging Stations RFI

#	RFI Section # (If applicable)	Question	Response
1.	2	Your website mentions that you have 61 refueling sites. Are you anticipating installing Networked EV Charging Stations at all 61 sites, or are you focused on a smaller subset? If so, how many sites will host Charging Stations?	The scope of how and where Networked EV Charging infrastructure gets installed has not been determined as yet and therefore cannot be specified. The goal here is to seek information about technologies that can be implemented City-wide across multiple sites.
2.	2	What type of vehicles will utilize these Networked EV Charging Stations?	The City seeks to learn about technologies that can work with a variety of vehicles types, ranging from smaller cars and SUVs to larger trash collection trucks. If your product works specifically with some types of vehicles, please describe them in your response.
3.	2	Is the City interested in just installation of the charging stations, or ongoing management of the facilities?	The City is interested in technologies for installation and ongoing management of networked EV charging stations.
4.	2	Does each refueling site have the necessary infrastructure for Networked EV Charging Stations?	In the context of what may be needed for a Networked EV Charging station, each site has power supply and internet connectivity to cater present day needs. Any more infrastructural requirements needed for your product's installation or management must be specified in your response, in addition to type of power supply and internet connectivity specific to your product.
5.	2	What is the City's overall strategic plan on EVs? What type of vehicles are being contemplated and what is the schedule for phase-in?	Please refer the City's Clean Fleet Plan for details. The document is available online at this link - <a href="https://www.phila.gov/media/20211006130414/Philadelphia-Municipal-Clean-Fleet-Plan-202110.pdf">https://www.phila.gov/media/20211006130414/Philadelphia-Municipal-Clean-Fleet-Plan-202110.pdf</a>
6.		Can the city provide more information as to where refueling stations are and if these sites are only accessible by city employees or by the public as well?	Please refer the attached table for site addresses. None of these sites are open for public access. They are only accessible by City employees during specific hours.
